ACKNOWLEDGEMENT

It is my pleasure to share the reports of Classroom Based Early Grade Reading Assessment (CB-EGRA) conducted by Education Review Office in May-April 2017 at Grades 2 and 3 of Nepali public schools. This assessment was conducted in a large number of schools (2605 schools) and students (72538 students) from 11 districts. As it is a group assessment, depending upon the number of students in the respective grades, the number students participated in the assessment from a grade of the selected schools ranged from 5 to 20. In each school, parents were invited to observe assessment activities in which the assessment results were shared to the parents immediately after the completion of the assessment.

During the process of Tools and Assessor Guidelines development and revision, Master Training of Trainers (MTOT), District Training of Trainers (DTOT), assessment conduction and results dissemination more than 9000 persons of various capacities participated and contributed. I acknowledge all of them for their contribution. I thank USAID and Early Grade Reading Project for technical as well as financial support for this assessment. My thanks goes to the officers from Education Review Office (ERO) and other Central Level Agencies (CLAs) under the Ministry of Education who took responsibility of conducting DTOT for the conduction of this assessment, District Education Officer and other officers in the District Education Office, Resource Persons, NEGRP focal persons at the districts, Reading Motivators and assessors. I appreciate the contribution of Taren Adhikari, Kedar Kilanbu and Sagar Mani Neupane from EGRP who have contributed a lot not only on developing tools and conducting assessment, but also in managing and analyzing the assessment data. I appreciate the efforts of Uttar Parajuli and Nripadwaj Magar from ERO who work hard to accomplish the task of CB-EGRA conduction. My thanks also go to Dr Peshal Khanal and Centre for Educational Research and Social Development (CERSOD) for timely completing the writing of this report.

We highly welcome constructive comments and suggestions for the next round of CB-EGRA.

CHAPTER I: INTRODUCTION

Context

To enhance the reading skills of children in early grades, the government of Nepal has been implementing the National Early Grade Reading Program (NEGRP) for five years (2014/15- 2019/20). The program focuses to improving the reading skills of students in early grades, especially in grades 1-3. Various researches show that learning ability of the students in early grades are significantly lower than the expected level (Room to Read, 2009; EQUIP 2, 2010; Save the Children, 2011; ASER 2011; World Education, 2012 as cited in NEGRP Document, 2014). To reduce the gap between the desired level and the existing level of reading abilities of the students, NEGRP has been implementing its programs.

NEGRP program document defines reading as the ability to understand written text with the focus on word recognition and comprehension. Word recognition requires strong decoding skills whereas comprehension is an understanding of the text being read. Thus, skilled reading is the ability to read fluently with comprehension (NEGRP, 2014). NEGRP has been implementing its plans and programs focusing on the principle of 'education of the equitable quality' with promoting strategies to ensure learning for all in the classroom (NEGRP, General Principles). NEGRP focuses to enhance reading abilities by creating learning oriented instructional design, developing workbooks and promoting skill-focused teaching learning. Similarly, supports such as orientation, training and professional development activities to the teachers and resource persons are the key strategies of NEGRP. Further, community and parental involvement in student learning is being promoted with the aim of improving accountability of the education system. Regular assessment of the students is one the core principles of the NEGRP as it provides feedback to the program and helps adjust the pace of teaching, providing addition support and differentiated instruction as and when necessary.

Taking the reading ability into consideration, NEGRP has focused on five different components of reading. The five components comprise the following skills:

- a. Phonemic awareness: The ability to manipulate the smallest units of sounds (or phonemes) in words.
- b. Alphabetic (or phonics) awareness: The understanding that the sequence of letters in a written word represents a sequence of sounds in spoken words.
- c. Fluency: The ability to read accurately and at an appropriate rate.
- d. Vocabulary: The breadth and depth of word knowledge and the ability to use and understand these words.
- e. Comprehension: The ability to extract meaning from text.

USAID's Early Grade Reading Program (EGRP) has been providing technical assistance for the Government of Nepal (GoN) to implement the NEGRP. Line agencies of the Ministry of Education implement different components of NEGRP. Curriculum Development Center (CDC) has been developing curriculum and learning materials. National Center for Educational Development (NCED) is facilitating the teaching training and professional development activities. Education Review Office (ERO) is assessing the student's achievement and Department of Education (DOE) is coordinating all the central line agencies and directly looking after the community and parental engagement programs.

One of the mandates of the Education Review Office (ERO) is to promote accountability of the schools by assessing of the students achievement (Education Review Office, 2017). Complying the mandate, ERO with the technical support of EGRP, has conducted Classroom-Based Early Grade Reading Assessment (CB-EGRA) in 2605 schools from 11 districts in 2017. This is a report of the CB-EGRA conducted by ERO at grade 2 and 3 in 2605 schools in 2017.

Assessments in Early Grades

Assessment of the student provides the status of the students' learning. It also helps figure out the areas of strength and weakness of the entire system. It means assessment provides the feedback to different teaching learning materials, learning environment and teachers work efficiency in one way or other. Assessment helps gather information and evidence of students learning and hence helps in decision making for the further improvement (assessment literacy, 2017). 'EGRA is a research-based collection of individual subtasks that measure some of the

foundational skills needed for reading acquisition in alphabetic languages. The purpose (i.e., research question) and the context for which EGRA is used contribute to its parameters' (Dubeck & Gove, 2015). Early Grade Reading Assessment (EGRA) is considered as one of the tools to measure the reading ability in early grades. EGRA basically measures the students' abilities in the five components of early grades viz. phonemic awareness, alphabetic (or phonics) awareness, fluency, vocabulary and comprehension. According to Dubeck and Gove (2015) 'EGRA provides a common language to discuss children's literacy abilities; for example, when presenting the results on the passage reading subtask, we have a means to understand the extent to which the children can handle grade-level text'. Dubeck and Gove (2015) have considered EGRA administration as the child-centered process as it is a one-to-one assessment. So, validity of the assessment is high.

CB-EGRA and Its Need

In Nepal, EGRA assessment covers the listening comprehension, letter reading, matra reading, paragraph reading (oral reading fluency) and the reading comprehension. A tool/design intended assessing orally the reading competencies of early graders. The assessment is administered with students individually by trained assessors in about 15/20 minutes.

EGRA is a means which helps to assess the reading competencies of the students. It provides information about oral reading fluency of the students. EGRA results assist to inform policy and program design. Further, it can be used as a baseline, mid-line and end-line achievement testing of the projects or programs with focus in early grades. Thus, it provides the ground for the national level comparison of the achievements or status of students. Need for technically sound and trained assessor is one of the limitations of the EGRA. Similarly, EGRA is sample based assessment. So, teachers cannot assess all of their students, but knowing the status of each student is essential for teachers and schools. So, it is hard for teachers and schools to use EGRA tools as the means of assessment for their periodical assessments of the students.

To assess reading skill of students, a new tool was introduced which can measure all the EGRA items except the oral reading fluency (ORF). It is named as Classroom

Based- Early Grade Reading Assessment (CB-EGRA). Group assessment test has now become not a new concept as it has been practiced internally in different name such as Group Administered Literacy Assessment (GALA). Stren (2016) discussed the importance of the GALA and says.

It limits administration time; can be administered with minimal training; has a simplified scoring system; is based on a previously validated tool; assesses a full range of early grade literacy skills; does not rely on passage reading; and can be adapted for new contexts and languages.

Since, it a group administered assessment; a teacher (or an assessor) can easily assess the entire classroom at a time. Thus, it is time and cost effective method of assessment of literacy achievements of the students. Classroom based early grade reading assessment is localized version of GALA like test. The following are the features of CB-EGRA:

- It is curricula based and the assessment measures curricular objectives (achievements).
- It is orally administered and therefore a group of students can be measured at a time.
- The data is comparable between schools and Resource Centers on different skill areas.
- A very powerful diagnostic tool to identify the strength and weakness
- Easy to use and simple to analyze data.
- Community/parents can observe children's performance.
- Tools are contextualized and can be used more frequently than EGRA.

Now, CB-EGRA is accepted as a means of assessment in early grades in Nepal. School sector development program (SSDP) of Nepal, 2016-2022 has also included it as one of the major assessment criteria to assess the students in early grades. The Government of Nepal committed to conduct CB-EGRA and disseminate its results to the parents in 2600 schools for the year 2073/74. This commitment was documented in SSDP as disbursement linked indicator (DLI 1). Thus, conduction of CB-EGRA in more than 2600 schools not only captured massive volume of data about students' present status of reading competency in early grades but it also fulfilled the target set by the DLI 1 of SSDP.

Purpose and Objectives of the Assessment

Purpose

The main purpose of the assessment was to assess the present status of students in their reading competencies from more 2600 from 11 different districts.

Objectives

The following are the major objective of the study

- To find out the average reading assessment score of students of grade 2 and 3 in the selected districts.
- To identify the district wise differences of reading early grade reading assessments.

CHAPTER II: METHODOLOGY

Assessment Coverage

The assessment was conducted in 11 different districts: Dhankuta, Saptari, Parsa, Bhaktapur, Kaski, Manang, Mustang, Dang, Banke, Bardiya and Kanchanpur. More than 2600 schools were assessed during the process. Data shows that there are more than 3000 community schools in the districts. However, to make results comparable, all the schools with more than five students in each grade 2 and 3 were selected for the assessment purpose. Among more than 3000 schools only 2605 were found eligible for the process. Nonetheless, discrepancy in data were observed in the field due to which some schools were found to have less than five students in both the grades.

Tools and Guidelines Preparation and Development

To maintain the credibility of the assessment, several efforts were made from the tools preparation to test administration. Different sets of tools and guidelines were used in the assessment and the training. A ten-day workshop was organized by ERO to develop and refine the tools and guidelines. The participants of the workshop were CLA representatives including MoE, DoE, ERO, NCED and CDC and the representatives from different I/NGOs including Save the Children, World Education, Room to Read, Teach for Nepal and World Vision. Considering the recommendations and reports of the pilot study, the team revised, amended and developed the new sets of tools and guidelines. The developed guidelines and tools were approved by the subject committee with necessary amendments. When the tools development and refinement completed, schools for the assessment were selected.

Preparation for CB-EGRA Administration

The training and orientation program on tools and guidelines were conducted in cascade model. Training of master trainers (MTotT) was conducted at central level. About 40 people participated in the training. The participants were from ERO,

Ministry of Education (MoE), Department of Education (DoE), NCED, CDC and EGRP. The master trainer led the training at the district level. District level training of trainers (DToT) was conducted in 10 different districts. The participants of the DToT were District Education Officers, NEGRP focal persons, schools supervisors, resource persons, reading motivators and EGRP regional and district team. In each district, about 30 participants participated in the orientation. Altogether, about 300 participants participated in DToT. After the DToT, the training was conducted in resource center (RC) level. The schools in the RC were clustered. About ten schools were clusters were formed in RC level and the cluster level trainings were led by RP and Reading motivators (RM). In the training, three teachers from each schools participated. Cluster level training was conducted in 266 different clusters. In this way about 8000 teachers were trained about the CB-EGRA and its conduction procedure. The time line of the training and the entire process is presented in the table no. 1.

6	CBEGRA conduction and Parents Dissemination	9 March 2017	2605 ¹	CB-EGRA was first conducted in 2561 schools in the first phase, in 25 April 2017, it was conducted in 13 schools of Manang and additionally, 31 schools from Bhaktapur districts were assessed on 18 June 2017

CB-EGRA Administration at Schools

As presented in table 1, CB-EGRA in schools was conducted in three different dates. In the first phase on 6 March 2017, it was conducted in 2561 schools from 10 districts. Maintaining the exam ethics, different set of tools was used in training and the actual assessment (please refer the Annex for the training and assessment tools). Similarly, in Manang district, assessment was conducted in 13 schools on 25 April 2017. Due to the small number of schools, DToT was not conducted in Manang district. However, DEO personnel and other concerned were included in the cluster level training. Lastly, to meet the exact figure targeted by SSDP, additional 31 schools were assessed on 18 June 2017 at Bhaktapur district.

The test duration was nearly one hour. After the completion of the assessment, teachers checked the assessment sheets. Usually teachers completed checking and result preparation within 2 hours. However, time varied with the number of assessed students. After preparing the results, it was disseminated among parents and schools management committee on the same day. Parents were found happy to observe the entire assessment process and the result of their children. The entire process was documented in minute book by the schools and endorsed by school management committee. The sheet which was used to disseminate the results to the parents is included in the annex of this report.

¹Altogether 2605 schools were assessed. Initially, only 2574 schools were assessed. In the second phase 31 additional schools from the Bhaktapur districts were assessed.

Once the completion of the test, the data was sent to district education offices through RC. People were hired to enter the data in excel sheet. Each district sends the complied data to the ERO and EGRP central office. The data were compiled and cleaned. For the visualization of the data and its reports, EGRP provided technical support to the ERO. A software named as PowerBI (Microsoft product) was used for the data visualization.

Data Analysis and Presentation

Obtained data from different districts was compiled and cleaned. For the data analysis, SPSS 23 software was used. The output of the SPSS and PowerBI was cross verified to ensure the validity of the results. The analyzed results have been presented in diagrammatic and tabular form.

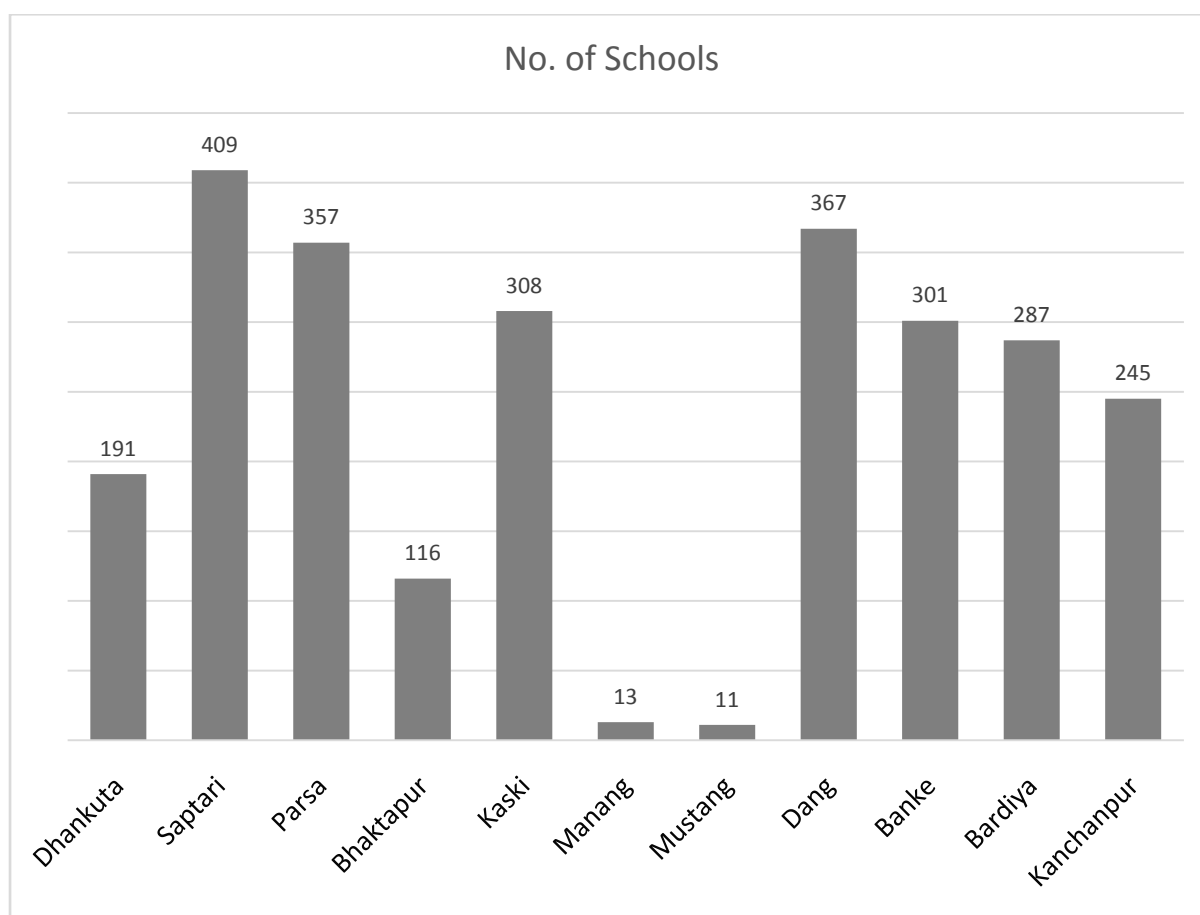

CHAPTER III: DATA PRESENTATION AND ANALYSIS

Schools and Students Number

Total Schools

CB-EGRA was conducted in 11 different districts (Dhankuta, Saptari, Parsa, Bhaktapur, Kaski, Manang, Mustang, Dang, Banke, Bardiya and Kanchapur). The total number of CB-EGRA conducted school is 2605. The number of CB-EGRA conducted schools from each district is presented in the figure 1.

Figure 1. District-wise distribution of schools

Only 11 schools were assessed from the Mustang schools whereas there were 409 schools from Saptari district.

Home Language-wise Distribution of Students

Students whose home language was Nepali was considered as L1 and those who spoke other than Nepali language at home was considered as L2. Data analysis shows that there were nearly double L2 speaker than L1 speaker. About 67% of the total students were L2 speaker whereas only 33% of them were L1 speaker. The distribution of students by language is given in table 2.

Table 2: Distribution of students by their home language

District	L1	%	L2	%	Total
Banke	2706	28	7025	72	9731
Bardiya	3256	34	6389	66	9645

Table 2 shows the presence of highest number of L2 in Saptari district. Home language of about 98% of total students was other than Nepali. The data for the Kaski was reverse. In the district there was about 90% of the students had Nepali as their home language.

Table 3 and 4 shows the grade-wise distribution of students with respect to their home language. The results for the grade 2 and 3 were also nearly the same as the result shown in table 2.

Results showed the majority of L2 students in Banke, Bardiya, Kanchanpur, Manang, Parsa and Saptari districts.

Sex-wise Distribution (Overall)

Looking the sex-wise distribution, girl participation was found better than boys. Of the total 55% of girls took the assessment whereas the weightage of boys only 45%. Looking the disaggregated picture, number of girls was more than boys in all districts except in Bhaktapur. Further detail is presented in table 5.

Table 5. Sex-wise disaggregation of the students

Mustang	40	44	50	56	90
Parsa	2461	42	3343	58	5804
Saptari	2694	42	3772	58	6466
Grand Total	16368	45	20187	55	36555

Thus, the assessment was conducted in 2605 schools from 11 different districts. Total students assessed during the process were 72538. Among them 24081 (33%

of total) students had Nepali as home language whereas 48457 (67% of total) students had other than Nepali as their home language. Thus, this assessment was also able to capture the scenario of learning competencies of non-Nepali speakers significantly. Similarly, girl participation in the assessment was 10 percent point more than the boys. Of the total 39827 (55% of the total) were girls and the number of boys was only 32711 (45% of the total).

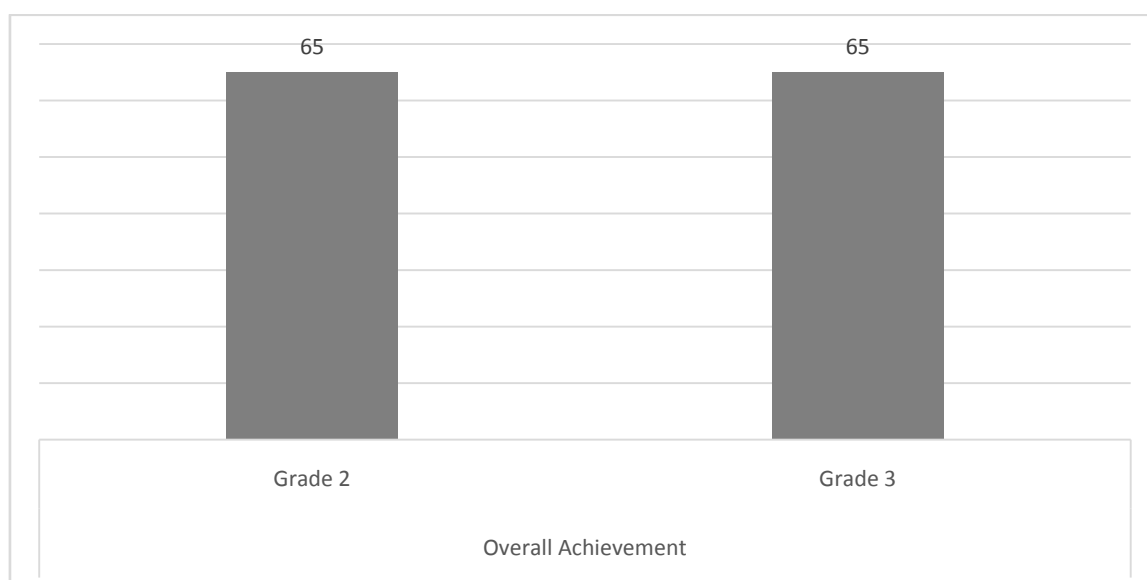

Analysis of Achievement of Students

Grade 2 and 3 students were assessed through different sets of CB-EGRA tools. The tools follow the learning objectives of the curriculum. So, using expert advice and support of statistical analysis of pilot study, grade level appropriate tools and guidelines were developed. The analysis includes not only overall achievement level, but also covers sub-task-wise as well as district-wise achievement of the students.

Overall Achievement

All the achievement was converted into percent average. The students of both the grades 2 and 3 achieved 65%. However, if we compare the result from the baseline (which was conducted in 2016 for the pilot purpose) it seems lower. The average score of both the grades was 74% at that time. The average percent achievement of grade 2 and grade three is presented in figure 2.

Figure 2. Average percent score of grade 2 and grade 3

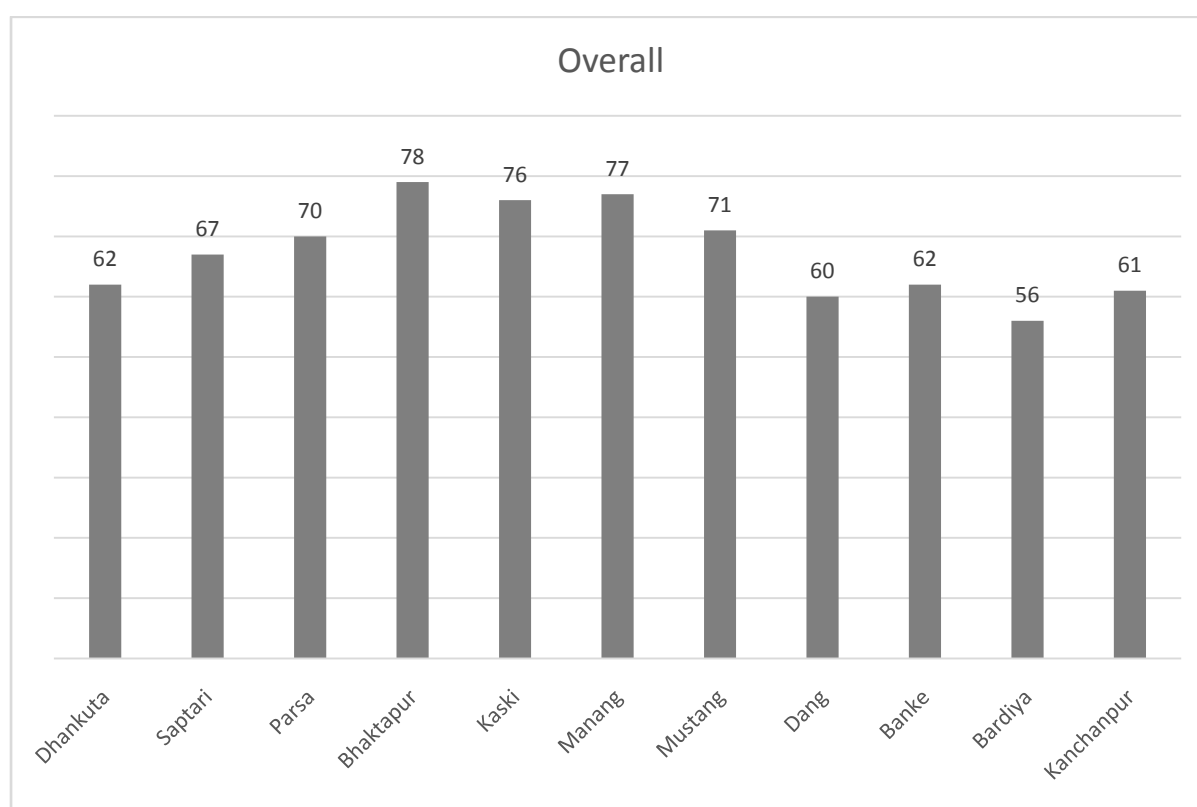

Hence, it seems both the grade students' achievement level was nearly the same i.e.65%.

Overall achievement of Grade 2 students

As mentioned in figure 2, the average percent score of grade 2 was 65. However, looking the district-wise disaggregated achievement; Bhaktapur district achieved the highest with 79% average percent whereas Bardiya achieved only 56%. Six districts namely Saptari, Parsa, Bhaktapur, Kaski, Manang and Mustang achieved above the average whereas remaining five districts were below the average (i.e. 65%). The district wise achievement for the grade 2 in disaggregated form is presented in figure 3.

Figure 3.District-wise disaggregated average achievement percent of grade 2

Sub-taskwise Achievement (Grade 2)

Grade 2 assessment was conducted in nine different sub-tasks. Sub-task detail is given in the table 8:

Table 8: Sub-task Detail of the Grade 2 Assessment Tool

Sub-task 1: Letter and Matra Identification

Students were found competent in the letter and matra identification sub-task. The average of the sub-task was found as 77% in average. Looking the district wise disaggregation, Mustang district was found most component with average percent score 88% whereas Bardiya scored 69% in average. The district-wise achievement in the sub-task is presented in figure 4.

Figure 4. District-wise achievement in Letter and Matra Identification Sub-task

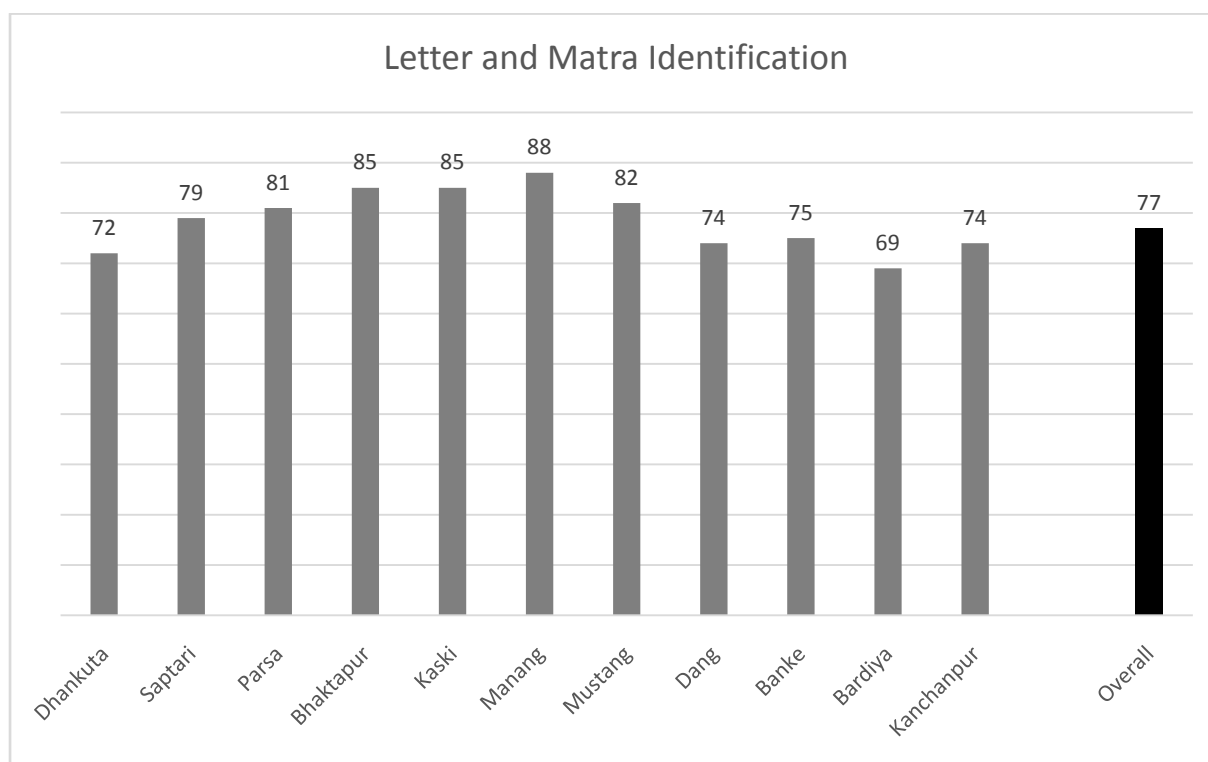

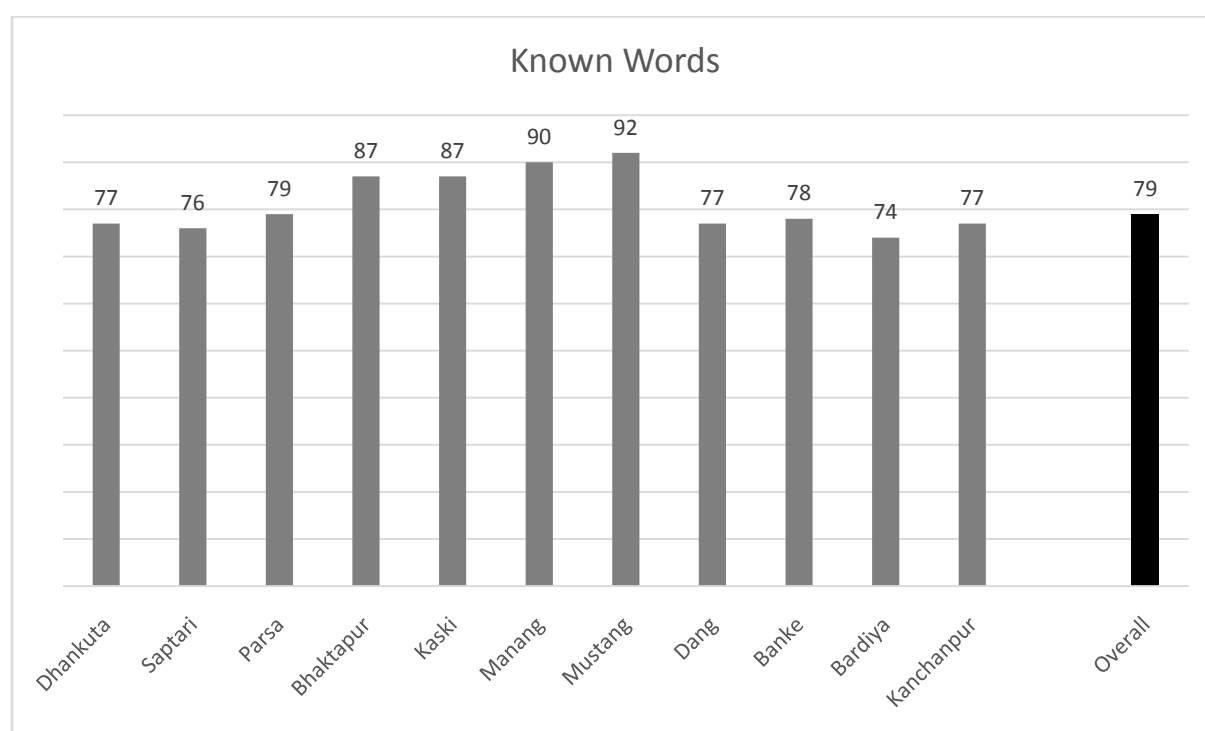

Figure shows that all the districts achieved above the overall average (65%) in this sub-task. The results revealed students were highly competent in Letter and Matra Identification.

Sub-task 2: Known Words

Grade 2 students were found more competent to identify the known words. The average percent score for the Known-Words Sub-task was 79% which was above than the letter and matra identification. The district-wise achievement for the sub-task is presented in figure 5.

Figure 5: District-wise achievement in Known Word Sub-task

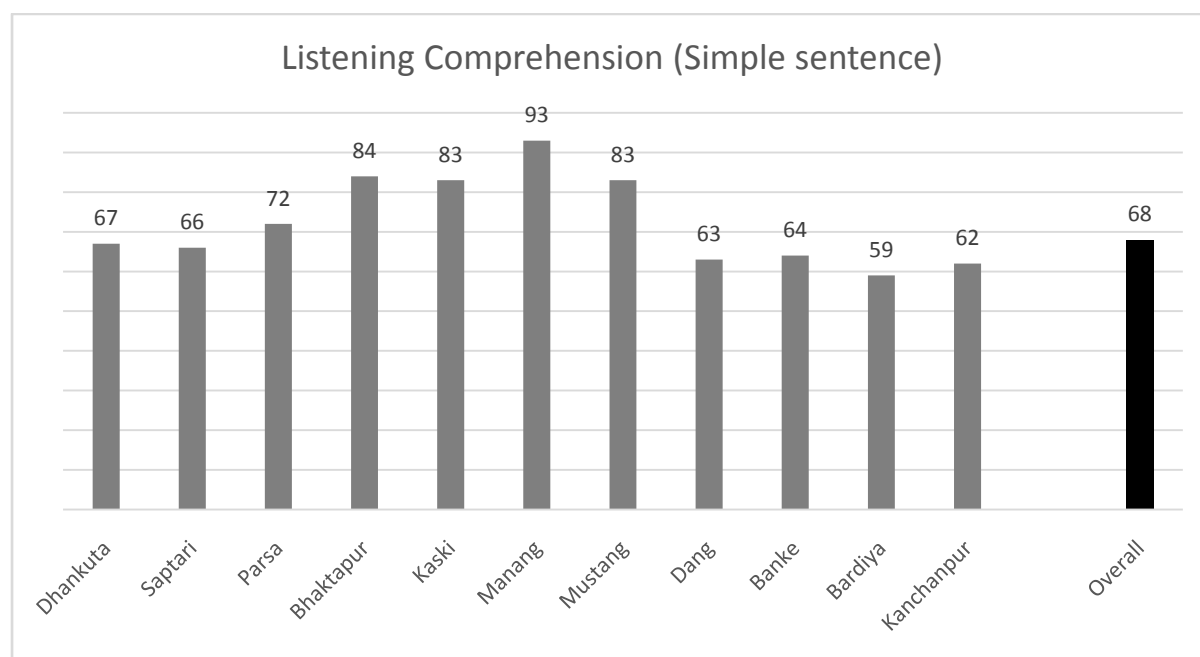

The figure shows that students of the Mustang and Manang districts were found most competent than the students from other districts. The achievement for the districts Mustang and Manang was 92% and 90% respectively. The achievement in this sub-task for the Bardiya district was 74%.

Sub-task 3: Listening Comprehension (Simple Sentence)

Students of grade 2 were found also better in identify simple sentences. The overall average percent score for the sub-task was 68% (Above the overall average 65%). However, the district wise achievement in this sub-task was not much uniform than the previous sub-tasks. Manang scored 93% in this sub-task, whereas Bardiya scored only 59%. Similarly, the score of Dang, Banke and Kanchapur was also the below the average (65%) in this sub-task. The achievement is presented in the figure 6.

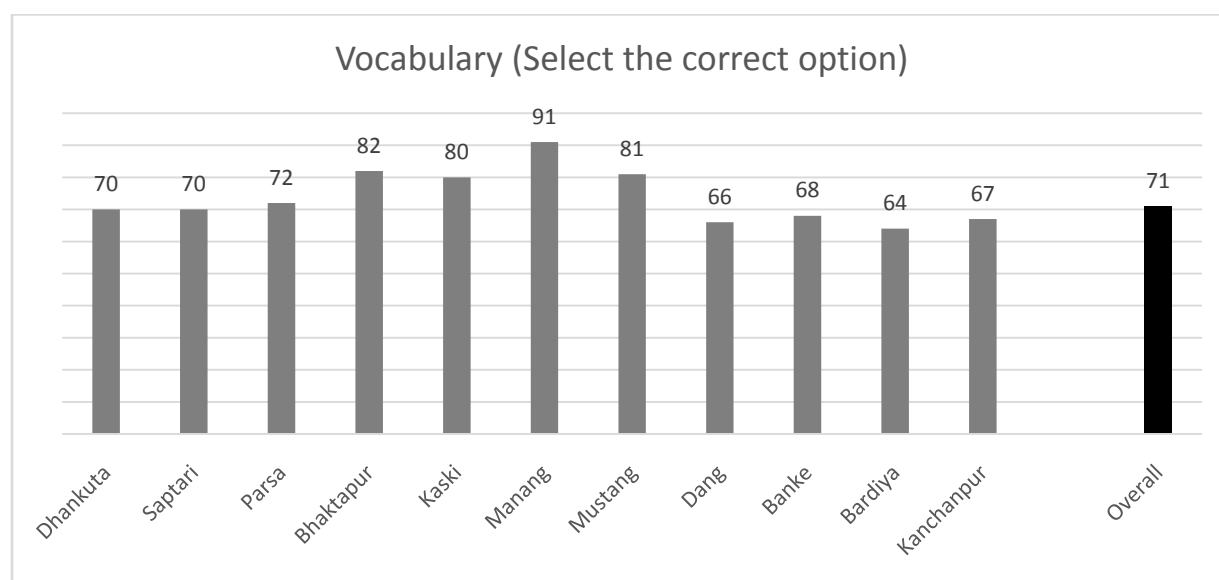

Figure 6: District-wise achievement in Listening Comprehension (Simple Sentence)
Sub-task

Sub-task 4: Vocabulary (Select the Correct Option)

Students were found competent in their vocabulary knowledge. The average percent score in this sub-task was 71% which was pretty higher than the overall average (65%). Similar to the previous sub-task, Manang was found most competent in this sub-task which scored 91%. The district-wise analysis for this sub-task is presented in the figure 7.

Figure 7. District-wise achievement Vocabulary (select the correct option) Sub-task

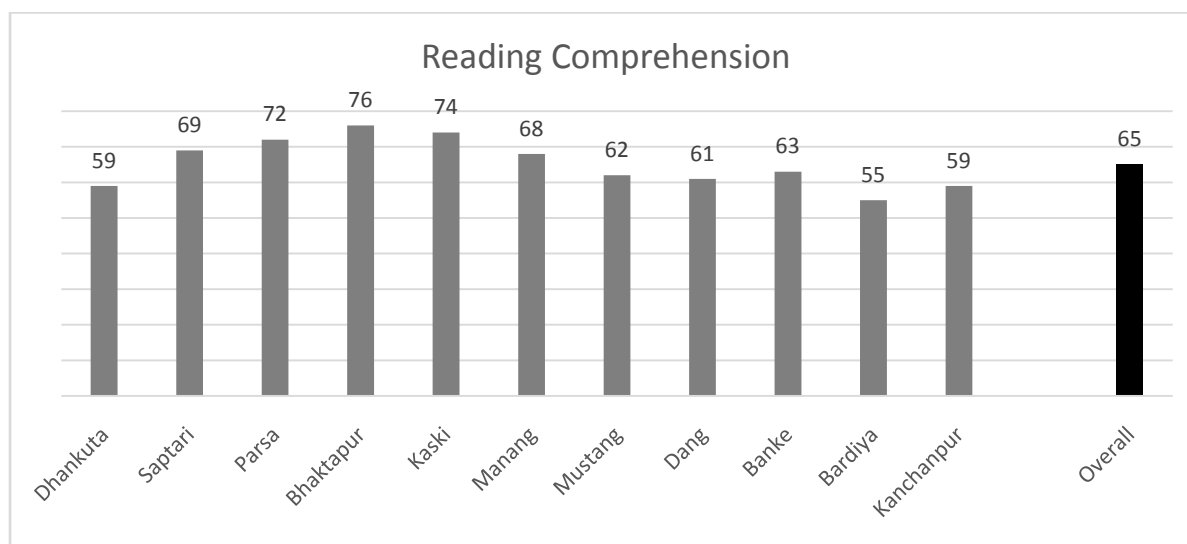

The average percent score for the Bardiya district was 64%. Except Bardiya districts, all the districts scored above the average (65%) in this sub-task.

Sub-task 5: Reading Comprehension

The average percent score for this sub-task was exactly similar to the overall average percent score. In this sub-task, Dhankuta, Mustang, Dang, Banke, Bardiya and Kanchapur achieved lower the average with respective percent scores 59%, 62%, 61%, 63%, 55% and 59 %. The district-wise disaggregation is presented in figure 8.

Figure 8. District-wise achievement on Reading Comprehension Sub-task

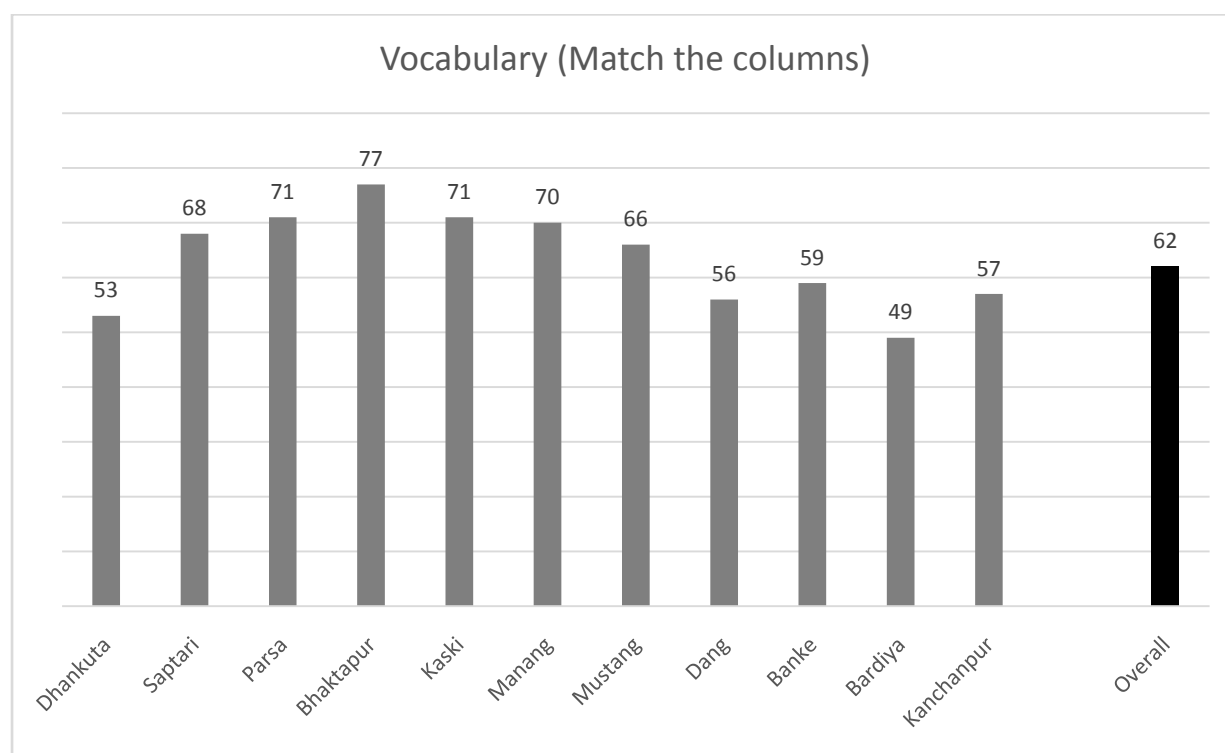

Score of many districts below the average clearly shows the need of special strategy to strengthen the reading comprehension of the students. Unlike to the previous sub-tasks, Mustang district was not found much competent.

Sub-task 6: Vocabulary (Match the Columns)

Students scored below the average in this sub-task. The average of this sub-task was only 62%. Bhaktapur districts was found most competent in this sub-task and scored 77% average percent score whereas Bardiya scored only 49%. Similarly, Dhankuta, Banke, Bardiya and Kanchapur districts also scored below the average with corresponding scores 53%, 56%, 59% and 49% respectively. The district-wise analysis is presented in the figure 9.

Figure 9. District-wise achievement on Vocabulary (Match the Columns)

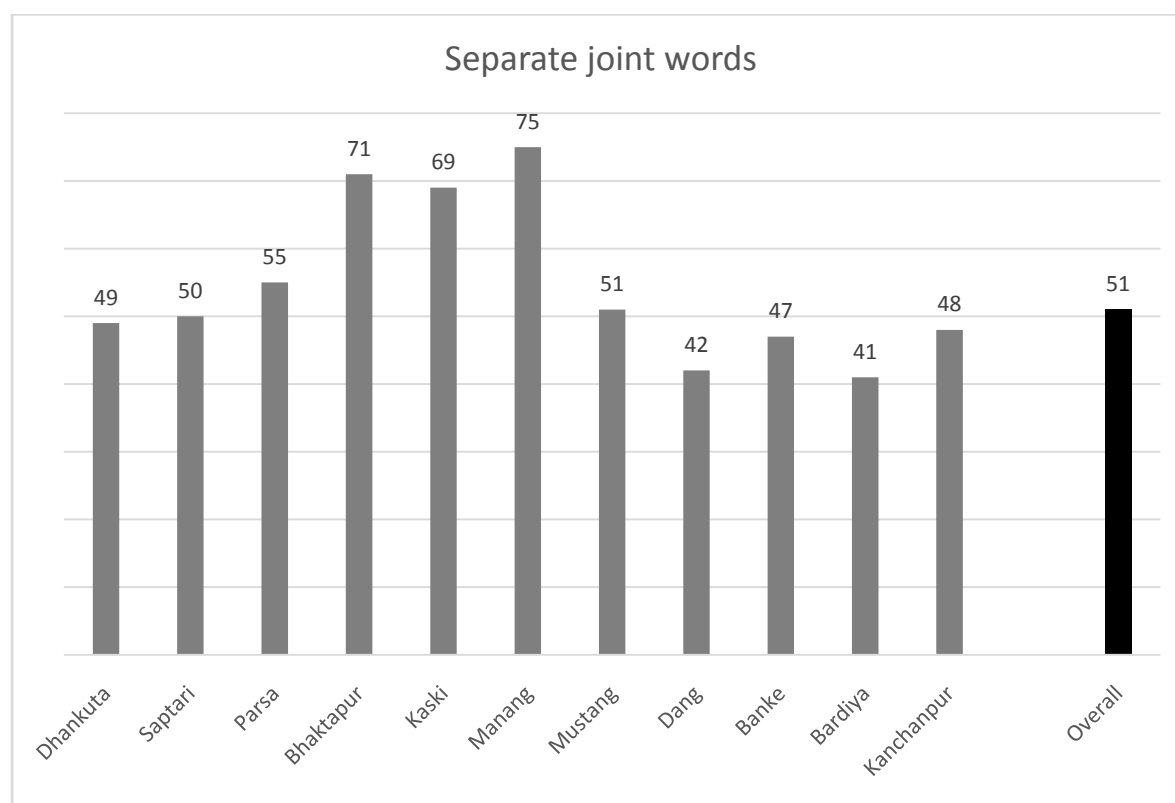

The result shows that most of students in different districts were below the average score. Only, five districts score above the average. This result has clearly indicated the needs of further improvement in vocabulary part.

Sub-task 7: Separate Joint Words

The average percent score for this sub-task was 51% which was significantly lower than the overall average percent score i.e. 65%. Few districts such as Dhankuta, Dang, Banke, Bardiya and Kanchanpur score remarkably the lower average viz. 49%, 42%, 47%, 43% and 49% respectively. However, Bhaktapur, Kaski and Manang scored better score in this sub-task. The district—wise disaggregation is presented in the figure 10.

Figure 10.District-wise achievement on sub-task Separate Joints Words

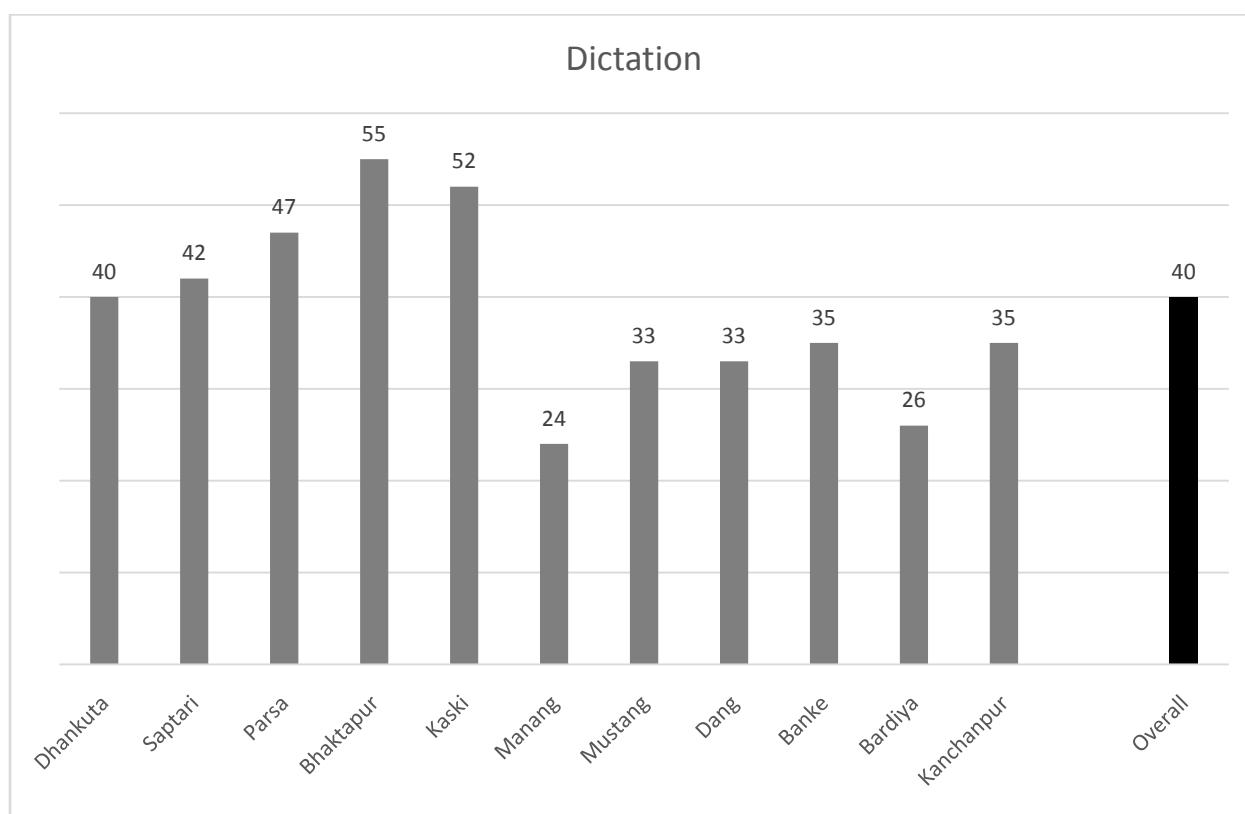

The result also showed that many students are lagging in this sub-task. Dang district achieved the least i.e. 42% whereas Manang scored 75% in an average. The fluctuation in the results also indicated that non-uniform level of competencies among the students in different districts.

Sub-task 8: Dictation

Students were found extremely less competent in this sub-task. The average percent score for this sub-task was only 40% which is significantly lower than the overall average i.e. 65%. All the districts achieved lower than the average score in this sub-task. However, Bhaktapur district scored 55% in this sub-task which seemed better than other districts. Manang and Bardiya districts scored only 24% and 26% respectively. The district-wise analysis is presented in the figure 11.

Figure 11. District-wise achievement on sub-task Dictation

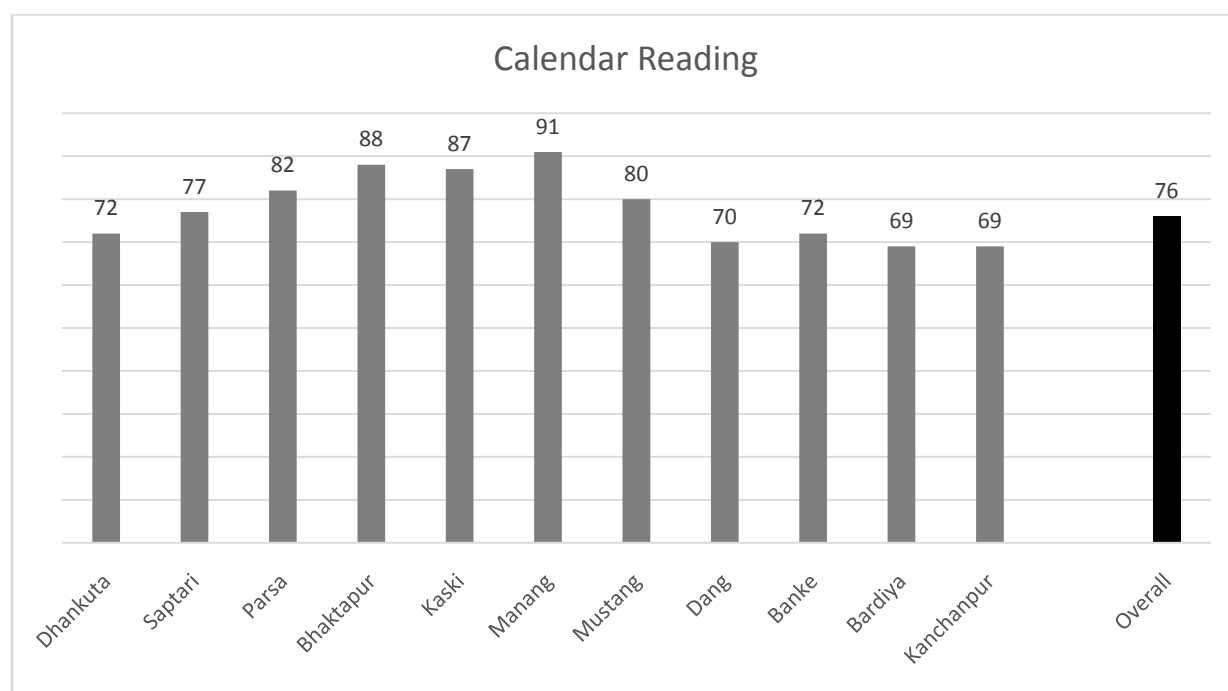

This result shows that students are lagging in writing. Students were found less competent in writing than in reading.

Sub-task 9: Calendar Reading

The average score for the calendar reading was 76%. The value is much better than the overall average. Students were found competent to comprehend the calendar. Students from Manang district were found most competent in this sub-task as the average percent score of Manang district was 91%. Kaski and Bhaktapur districts were also found better in this sub-task as their average percent scores were 87% and 88% respectively. The district wise disaggregation in the sub-task is presented in figure 12.

Figure 12. District-wise achievement on Calendar Reading

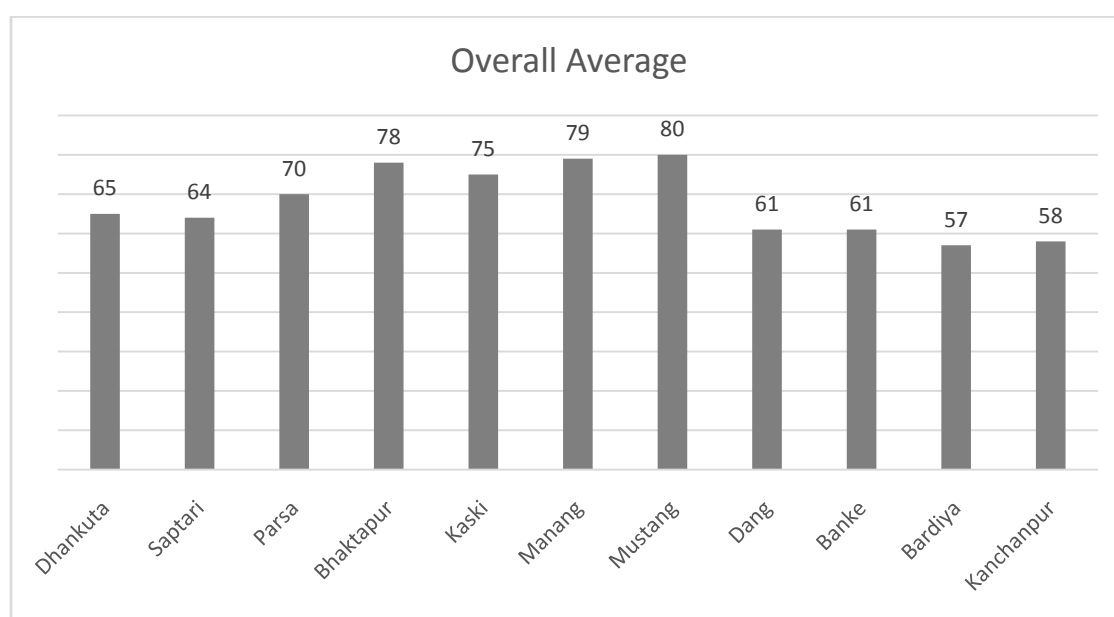

Looking the above results, students from grade 2 were found competent in some sub-tasks whereas they were found still struggling in some sub-tasks. Students were found better in lower level of sub-tasks such as Letter and Matra Identification, Reading Known Words etc. whereas they were found less competent in higher level of sub-tasks such as reading comprehension, choosing correct words etc. Students were found extremely weaker in writing parts such as dictation writing. Thus, this result demands more focus on reading comprehension and writing parts.

Overall Achievements of Grade 3 Students

As mentioned in figure 2, the average percent score of grade 3 was also 65. However, looking the district-wise disaggregated achievement, Mustang district achieved the highest with 80% average percent average whereas Bardiya achieved only 57%. Six districts namely Saptari, Dang, Banke, Bardiya and Kanchanpur achieved below the average whereas remaining five districts were below the average (i.e. 65%). The district wise achievement for the grade 3 in disaggregated form is presented in figure 13.

Figure 13. District-wise disaggregated average percent achievement of grade 3

Sub-taskwise Achievement (Grade 3)

Grade 3 assessment was conducted in nine different sub-tasks. Sub-task detail is given in table 9. The sub-tasks were developed based on the grade 3 curriculum learning objectives. In each sub-task there were at least three different items.

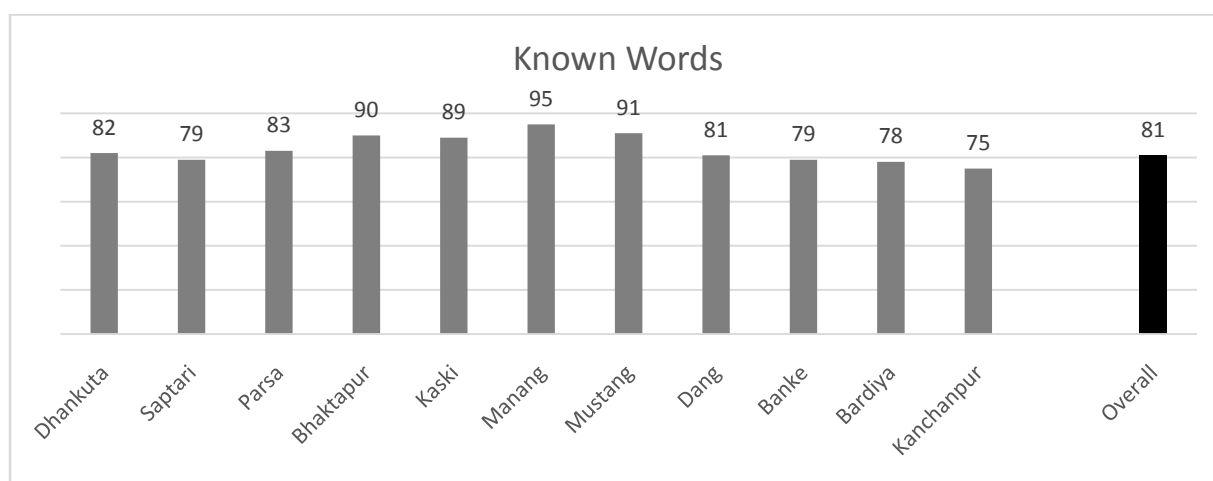

Table 9: Sub-task Detail of the Grade 3 Assessment Tool

Sub-task 1: Known Words Identification

Students from grade 3 were found competent enough in identification of known words. The average percent achievement in this sub-task was 81%. Some districts such as Bhaktapur, Kaski, Manang and Mustang were achieved well in this sub-task with respective scores 90%, 89%, 95% and 91%. The district-wise disaggregation of achievement in this sub-task is presented in figure 14.

Figure 14. District-wise achievement on Known Word Identification

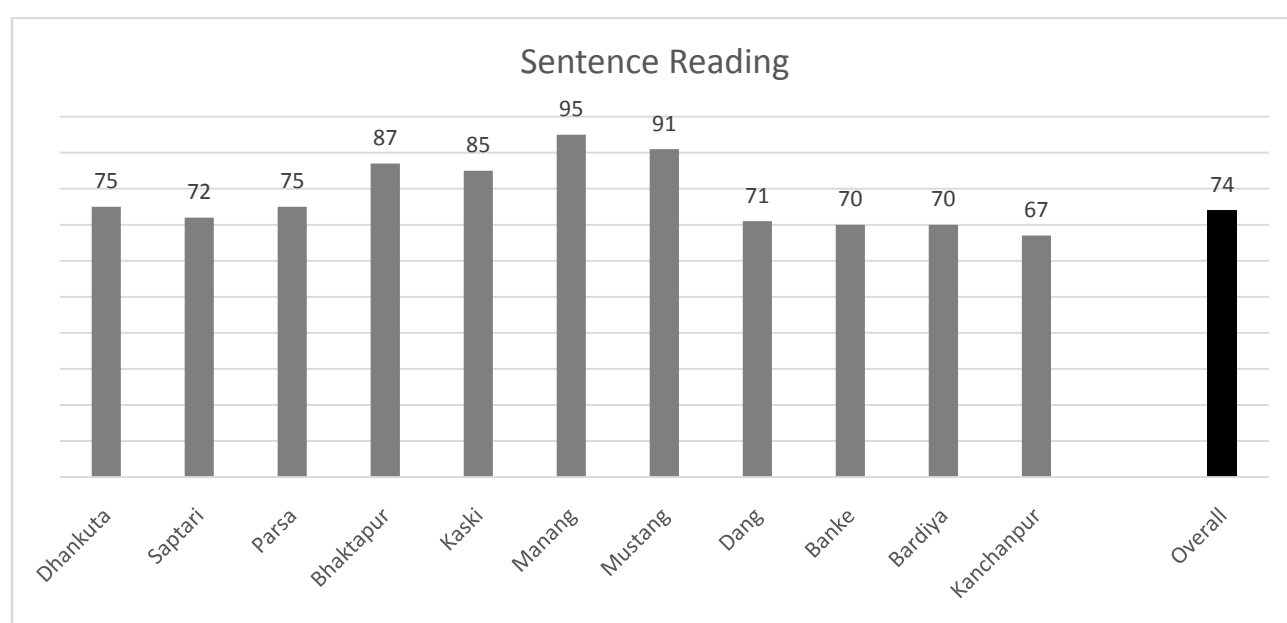

The result shows that all of the districts were able to achieve higher than the overall average (65%). However, comparison shows that Kanchanpur achieved least (75%) in this sub-task.

Sub-task 2: Sentence Identification

Students achieved slightly less in this sub-task than the first sub-task. The average score in the sub-task sentence identification was 74%. In this sub-task also, all the districts achieved above the average. The district-wise disaggregation is shown in figure 15.

Figure 15. District-wise achievement on Sentence Reading

Result shows that Manang district achieved the highest in this subtask with average percent score 95% whereas the least achieved was noticed in Kanchanpur district. The district-wise achievement distribution was not found much uniform. It suggests that the despite the higher achievement in this sub-task, there exists a big gap among the districts.

Sub-task 3: Reading Comprehension

As expected, grade 3 students were found more competent in reading comprehension than grade 2 students. However, the average achievements score is higher. The average percent score in reading comprehension was 81%. The figure 16 provides the district-wise difference in reading comprehension.

Figure 16.District-wise achievement on Reading Comprehension

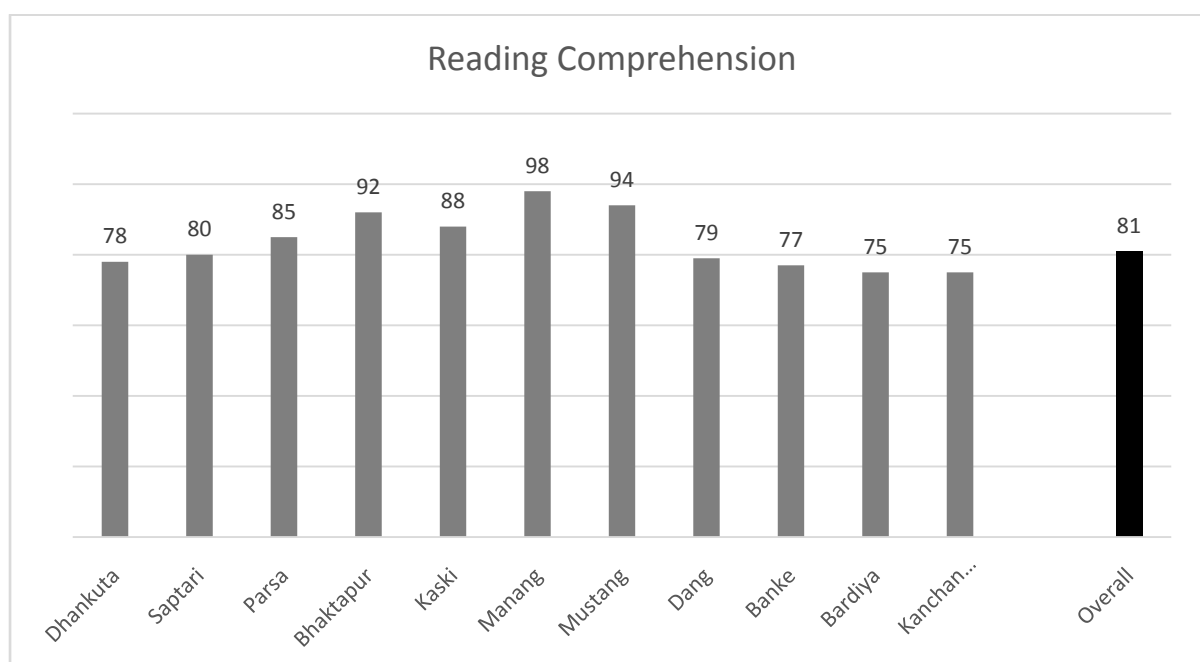

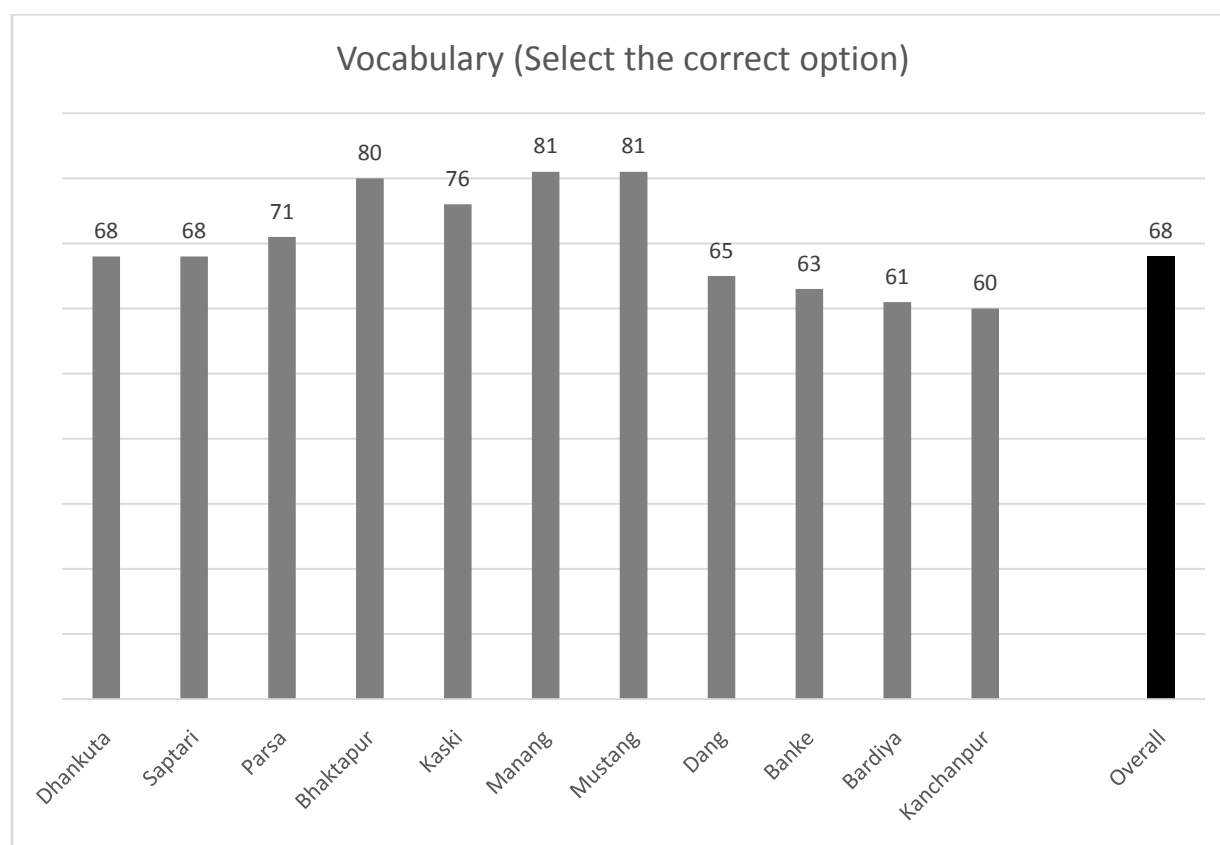

Figure indicates that some districts such as Manang, Mustang and Bhaktapur were better in reading comprehension with average percent score 98%, 94% and 92% respectively. Bardiya and Kanchanpur scored equally 75%.

Sub-task 4: Vocabulary (Select the correct word)

Vocabulary power of grade 3 students was found impressive with average percent score 68%. It was found best in Manang and Mustang with score 81%. Bardiya district average was 61% which was the least among the 11 districts. The district-wise analysis is presented in figure 17.

Figure 17. District-wise achievement on Vocabulary (Select the Correct Option)

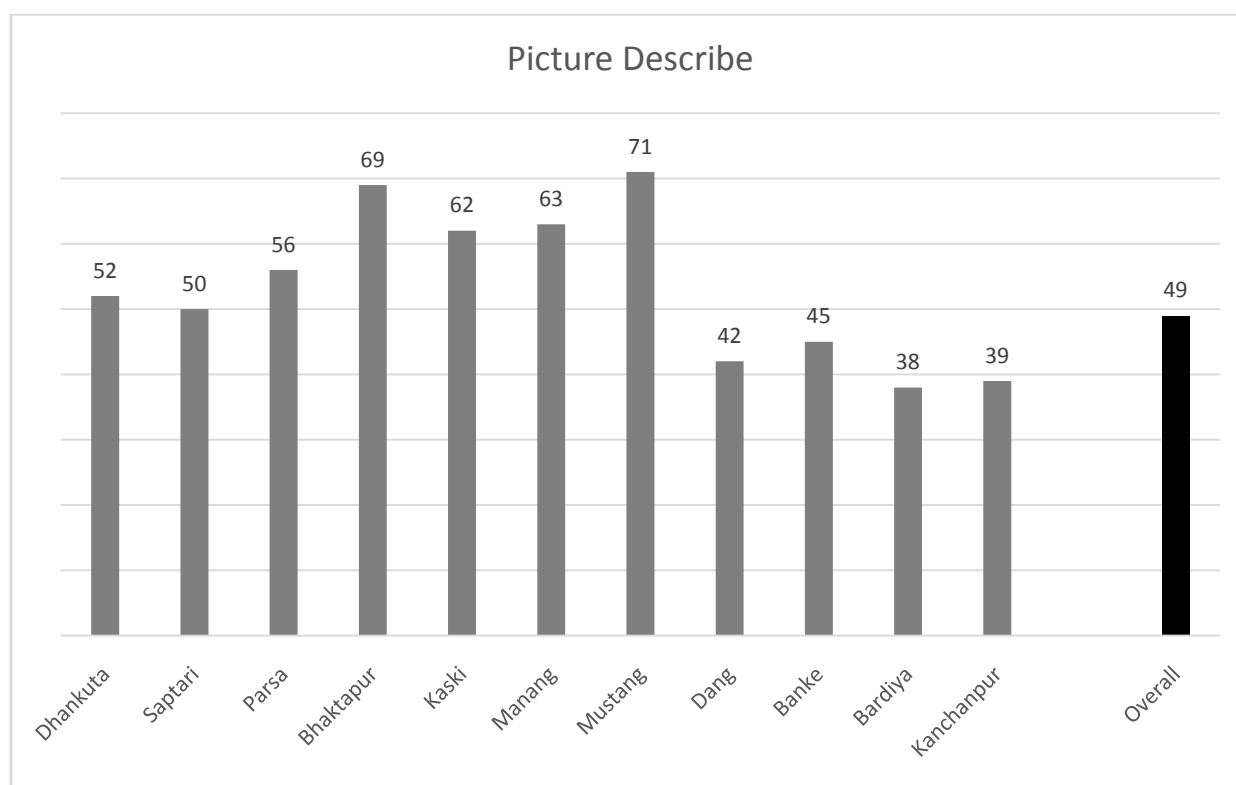

The figure indicates that the distribution of the achievement in vocabulary is nearly uniform. Except Banke, Bardiya and Kanchanpur districts, remaining districts scored above the overall average (65%). This signifies that students were good in vocabulary.

Sub-task 5: Picture Description

Students were not found much good in comprehending the pictures. The average score for the picture description was only 49% which was significantly lower than the overall average. However, some districts scored better in this sub-task as well. Manang scored the highest with 71% average score and in the same line Bhaktapur scored 69%. Dang, Bardiya and Kanchanpur districts scored the less with average percent scores 42%, 38% and 39% respectively. The figure 18 gives the district-wise disaggregated data in this sub-task.

Figure 18.District-wise achievement on Picture Description

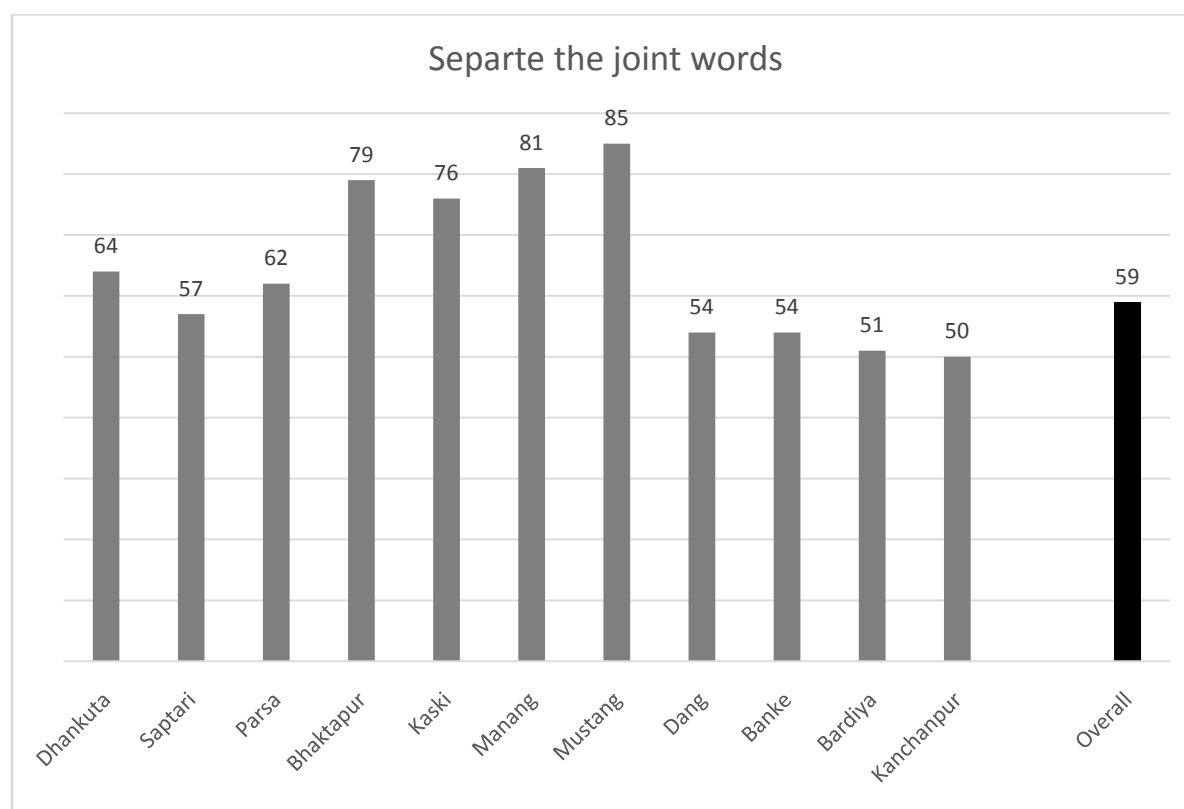

The result was not found uniform. Total of 32 percent point of difference was noticed between the achievement of highest and lowest scoring districts. It signifies the presence of diversified level of students.

Sub-task 6: Separate the joint words

Students from grade 3 developed quite impressive knowledge to separate the joint words. The average percent score for this sub-task was 59%. The figure 19 provides the district-wise analysis of grade 3 students in their competency to separate the joint words.

Figure 19. District-wise achievement on Separate the Joint Words

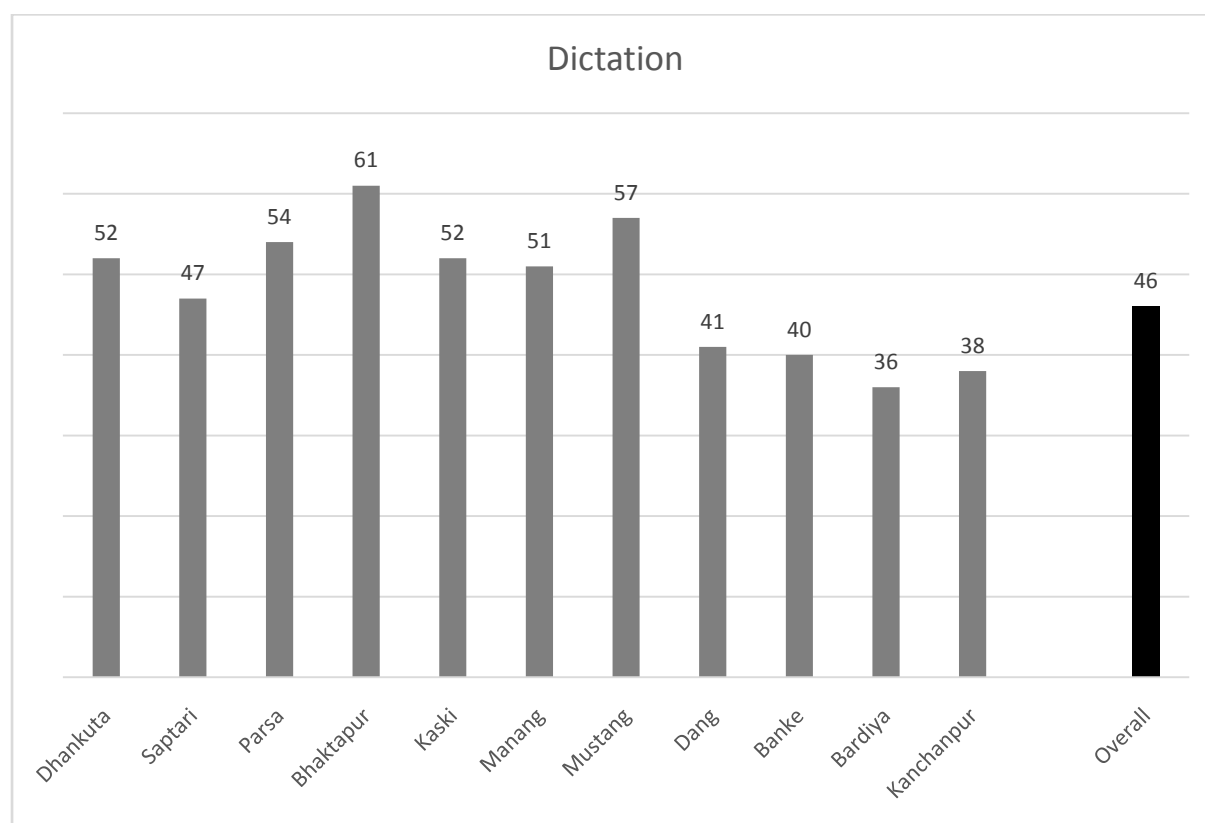

In this sub-task the highest score was achieved by the Mustang district (85%) whereas the least score was achieved by Kanchanpur district (50%). However, seven out of 11 district were found below the overall average (65%) signifies that still students from majority of districts are struggling to separate the joint words.

Sub-task 7: Dictation

Similar to the grade 2 students, students from grade 3 were also found lagging behind in writing especially dictating the sentences. The average score for this sub-task was 46%. All the districts scored below the average in this sub-task. Bardiya scored the least with 36% average score and Bhaktapur scored the highest in this subtask with score 61%. The figure 20 provides the district-wise disaggregated figure of the achievement of students in dictating the sentences.

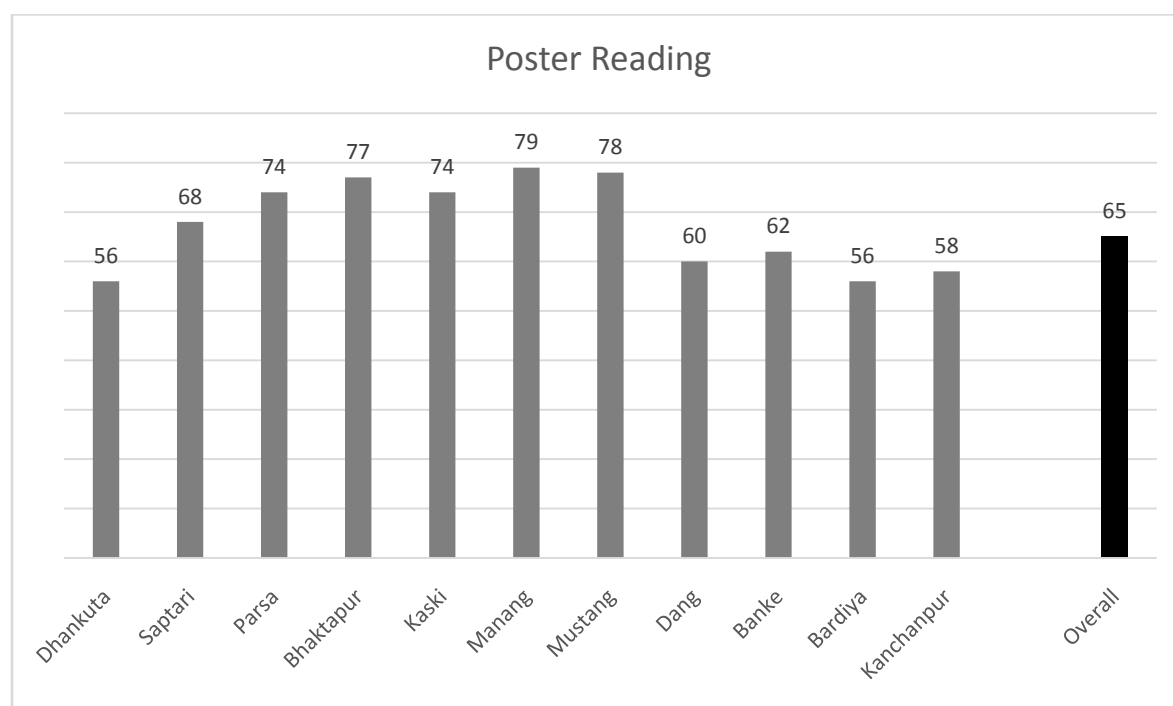

Figure 20. District-wise achievement on Dictation

Sub-task 8: Poster Reading

Comparing to the picture readings, students were found more competent to read the posters. The average percent score in poster reading was found as 65% which was exactly the same as overall average score (65%). Bhaktapur, Manang and Mustang were found better in this subtask as they scored 77%, 79% and 78% respectively in average. Two districts Bardiya and Dhankuta scored least in this sub-task with average percent score 56%. The figure 21 provides the district-wise achievement percent score in average with respect of poster reading.

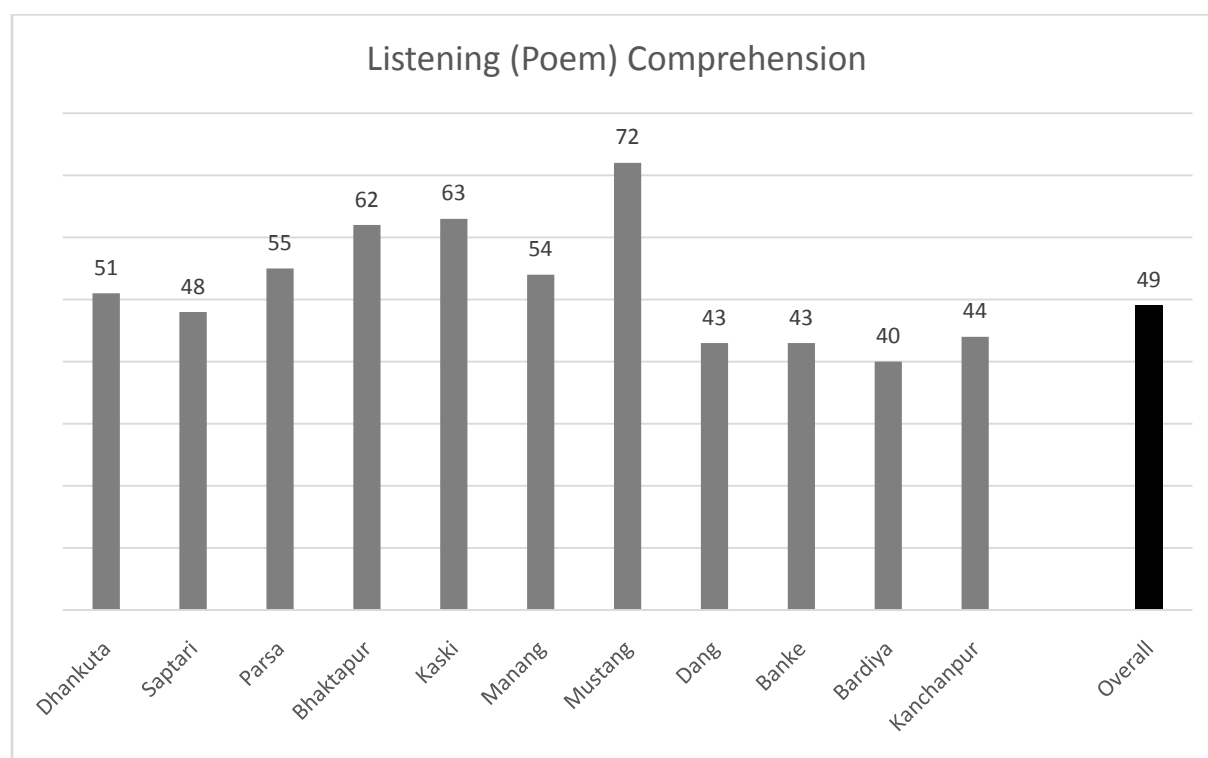

Figure 21. District-wise achievement on Poster Reading

Sub-task 9: Listening (Poem) Comprehension

Students were not found much competent in poem comprehension. The average score for this sub-task was 49%. All the districts except Mustang scored below the overall average (65%) in this sub-task. The average percent score for the Bardiya district was the least (40%) and the highest score was obtained for Mustang district (79%). Similarly, the district-wise distribution for the achievement in this sub-task was not found uniform. The gap between highest and lowest percent average was found as 32 percent point. This indicates that poem listening and comprehending it varies significantly among the districts. Figure 22 shows the district wise disaggregated result of achievement of students in Listening (Poem) comprehension.

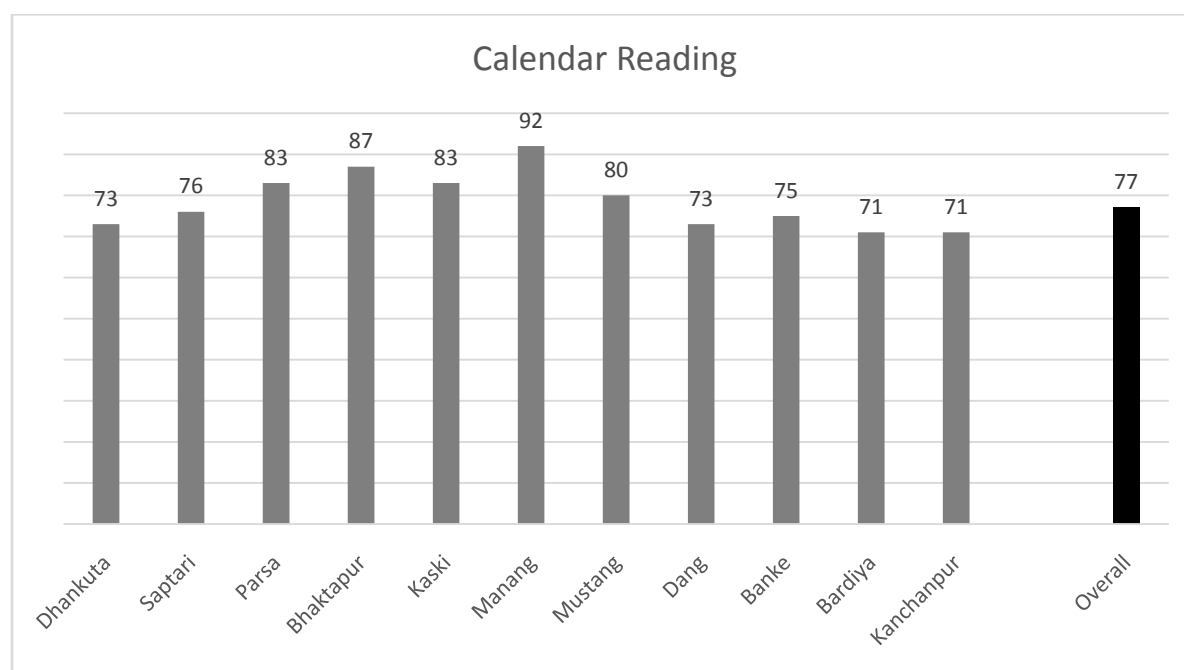

Figure 22. District-wise achievement on Listening (Poem) Comprehension

Sub-task 10. Calendar Reading

Students were pretty well to comprehend the calendar. The average percent score for this sub-task was 77%. All the districts were achieved higher than overall average (65%) in the sub-task. Manang was found best as average score for the district was 92% and the least average for this sub-task was obtained by two districts Bardiya and Kanchanpur. The distribution seems uniform. So, it signifies that almost all the districts are equally competent in calendar reading. The figure 22 gives the district-wise average percent score for the sub-task calendar reading.

Figure 23. District-wise achievement on Calendar Reading

Thus, analyzing the CB-EGRA data of the grade 3, students were found struggle in dictation. However, they were found in reading comprehension. It is observed that students found poster reading and calendar reading as easy task. The distribution in most of the sub-task was not found uniform. This indicates the existence of gap among the students in different districts.

CHAPTER IV: FINDINGS AND IMPLICATIONS

Analyzing the assessment data (quantitative), observing the qualitative notes obtained from different districts, discussion with the ERO and EGRP personnel who were directly involved in CB-EGRA process, the following findings are listed:

Assessment Tools

Assessment tools were prepared from the ten-day workshop. The development process was rigorous and worthy. Tools were developed taking learning achievement into consideration. So, it could be claimed that tools were grade level appropriate. Due to different tools for the grade 2 and 3, achievement of both the grades are not comparable. However, in some cases, similar tasks were developed for both the grades.

However, participation in the training sessions shows that a small number of grade teachers were involved in the tools development process. So, it would be better to involve more grade teachers to capture real classroom scenario during the process. So, it is recommended to involve more grade level teachers while revising the tools.

Some minor difference between the teacher guidelines and students tools was noticed in some cases (especially in training material). So, it is suggested for the minute checks before using it.

Training

Cascade model of training to train the teachers as assessors was impressive. The value addition in the process was noticed. However, in some cases the information flowed from MToT to DToT and DToT to Cluster Training and Cluster Training to the classroom assessment was noticed as the different. So, strategies should be developed and implemented to reduce the gap.

Exam Conduction

CB-EGRA is considered as one of the supplementary assessment strategy for the continuous assessment system. However, in some cases, schools did not take it as expected. Schools tried to flatten their result to show them good. So, the objectives of the CB-EGRA should be clearly communicated to the schools and districts.

The assessment taken by peer of teachers was found more efficient than that was taken by a single teacher. So, for the next time, it can be planned to have one more teacher to take the test.

Parents Participation/ Involvement

This was found the most beautiful part of the entire process. All the schools took assessment in presence of parents. Almost 35000 parents participated in the process. This was the event which was able to bring parents in the schools. In many cases, parents observed how their children take tests. So, this should be continued. However, more thoughts can be made to make meaningful participation of parents.

Assessment Results

Students were found good in lower level sub-task such as identification of letter and matra and reading simple sentences. However, in reading comprehension, vocabulary, students did not perform better as expected. So, strategies should be developed and adopted to enhance reading comprehension and vocabulary.

Students were found extremely weak in dictating the sentences. It shows the writing skills of students need further strengthening. So, strategies are to develop and adopt to enhance the writing skills.

While making district-wise comparison, grade 2 students in Manang district were found most competent (score 77%) while students from Bardiya scored only 56%. This results shows the big difference i.e. 21 percent point between the students from different districts. Similarly, looking the grade three results, students from Mustang were found most competent (score 80%) and the students from Bardiya district

scored the least (57%). Thus, in this grade also gap of 23 percent point was noticed. So, different strategies should be adopted to reduce the gap.

Overall Impression and Recommendation

Based on the above analysis, it was observed that continuation of this assessment (CB-EGRA) provides a lot of information about students' status in terms of their achievements to teachers, schools administration, parents, district education offices and central level. It also proved opportunity to identify different areas where further improvement is needed. So, it is highly recommended for the continuation of the assessment. It can be administrated by district offices once in a year and central level agencies such as ERO could work for compiling and analyzing the assessment results and identifying the of areas for further improvement. Similarly, it would be helpful for the central level institution to make appropriate policies to enhance the reading skills of the students.

Besides, it is recommended to conduct the assessment at least two times in a year. It will provide opportunity to the teachers to assess the achievement of students periodically and also helps to know about the effectiveness of their teaching strategies. It also helps teachers to identify the areas of improvement. So, adaptation of CB-EGRA by the system including central level, district level and school level is highly recommended.

Based on the data collected from parents and teachers during the assessment, it was observed that teachers needed further capacity development support. Capacity of the teachers on developing and conducting CB-EGRA should be enhanced. Teachers should be made competent enough to design and conduct CB-EGRA themselves in school levels.

As the central level administration of the assessment demanded large amount of the cost. So, teachers and head teachers of the schools should be made responsible with enhanced capacity so that the system could be handover to the schools. It would be more effective if school itself develop and administered the assessment.

यो खण्ड सुरु गर्नु पूर्व कालो / सेतो पाटीमा तल देखाइएअनुसारका बाकसको चित्र कोर्नुहोस् र प्रत्येक कोठामा निम्न लिखित वाक्यहरू लेख्नुहोस् :

कुकुरले रोटी खायो ।	कुकुरले भात खायो ।	ढुकुरले चारा खायो ।	ढुकुरले बचेरा उडायो ।	कुकुरले दुःख पायो ।
---------------------	--------------------	---------------------	-----------------------	---------------------

- यो पृष्ठमा तिमीहरूले (कालो/सेतो पाटीमा देखाउँदै) यस्तो बाकस देख्ने छौ । अब म तिमीहरूलाई एउटा वाक्य भन्ने छु । मैले भनेको वाक्य (कुकुरले दुःख पायो) राम्ररी सुन र तलको बाकसमा दिइएका वाक्यहरूमध्ये ठिक वाक्यमा रेजा चिह्न (✓) लगाऊ । के मैले भनेका कुराहरू सबैले बुझ्यौ ? नबुझेमा पुनः दोहोर्‍याउने र किन सही हो होइन व्याख्या गरिदिने ।
- तिमीहरू सबैले उत्तर दिने तरिका बुझ्यौ ? अब हामी सुरु गरौं त ? (विद्यार्थीहरूले स्पष्ट रूपमा बुझेको सुनिश्चित गरी परीक्षण कार्य सुरु गर्ने अनुमति लिनुहोस् ।)
- १) ● बाकस नम्बर १ अब मलाई हेर र मैले उच्चारण गरेको पहिलो वाक्य (वनमा मयूर देखियो ।) पहिचान गरी ठिकमा रेजा चिह्न (✓) लगाऊ । (वाक्यको उच्चारण एक पटक पुनः दोहोर्‍याउनुहोस् ।) मैले भनेको फेरि एकपटक सुन है त ! **वनमा मयूर देखियो ।**

(यसैगरी तल दिइएका वाक्यहरू पनि उच्चारण गरी पुनः एक पटक दोहोर्‍याउनुहोस् :)

- २) ● बाकस नम्बर २ **बिहानको खाजा लिएर जाऊ ।**
बिहानको खाजा लिएर जाऊ ।
- ३) ● बाकस नम्बर ४ **फ्याउरोले कागलाई धेरै दिक्क बनायो ।**

शब्द भण्डार (सि.उ. २४)

निर्देशन/उदाहरण

यो खण्ड सुरु गर्नुपूर्व कालो/सेतोपाटीमा तल देखाइएअनुसारको चित्र टाँस्नुहोस् र निम्नलिखित शब्दहरू लेख्नुहोस् :

कुकर

कुकुर

ककुर

- ☛ यो पृष्ठमा तिमीहरूले (कालो/सेतो पाटीमा देखाउँदै) दिइएका शब्दहरूमध्ये चित्रसँग मिल्ने ठिक शब्दमा गोलो घेरा लगाऊ । के मैले भनेका कुराहरू सबैले बुझ्यौ ? तिमीहरूमध्ये कोही अभ्यास गर्न चाहन्छौ ?

विद्यार्थीहरूमध्ये कसैले हात उठाएको भए उसलाई कालो/सेतो पाटी नजिक ल्याई सबैले देख्ने गरी अभ्यास गराउनुहोस् । अब उसले गोलो घेरा लगाएको शब्द सही भए, नभएको कुरा सबै कक्षाका विद्यार्थीहरूलाई सोध्नुहोस् । सही उत्तरका लागि धन्यवाद दिनुहोस् ।

कुकर

कुकुर

ककुर

- ☛ तिमीहरू सबैले उत्तर दिने तरिका बुझ्यौ ? अब हामी सुरु गरौं त ? (विद्यार्थीहरूले स्पष्ट रूपमा बुझेको सुनिश्चित गरी परीक्षण कार्य सुरु गर्ने अनुमति लिनुहोस् ।)

विद्यार्थीहरू उपकार्य ४ को पृष्ठमा भए, नभएको यकिन गरी तलकाअनुसार क्रियाकलाप अगाडि बढाउनुहोस् ।

- ☛ यो खण्डमा तिमीहरूले बायाँतिर चित्र र दायाँतिर चित्रसित सम्बन्धित शब्दहरू देख्ने छौ । ती दायाँतिर भएका शब्दहरूमध्ये कुनै एउटा मात्र चित्रसँग मिल्ने सही शब्द छ । सो शब्द पहिचान गरी तिमीहरूले त्यसलाई गोलो घेरा लगाऊ । समय २ मिनेट हुनेछ ।

- ☛ ल अब सुरु गरौं है त !

२ मिनेट पढेपछि उत्तर दिने कार्य रोक्नका लागि तयार रहनुहोस् । जब विद्यार्थीले उत्तर दिन थालेको २ मिनेट पुग्छ, समय सकिएको सङ्केत गर्नुहोस् र लेख्ने कार्य पूर्ण रूपमा बन्द गराउनुहोस् ।

उपकार्य ५

समय : ६ मिनेट

पठन बोध (सरल शब्द र वाक्य) (सिउ १४)

निर्देशन र उदाहरण

नमुना कथा, नमुना प्रश्नहरू र नमुना उत्तरहरूको सूची कालो/सेतो पाटीमा लेख्नुहोस् । त्यसपछि विद्यार्थीहरूलाई ध्यानपूर्वक पढ्न अनुरोध गर्नुहोस् (विद्यार्थी तयार नभएको अवस्थामा आफैँले उक्त कथा सस्वरवाचन गरिदिनुहोस् ।) वाचन गरिसकेपछि विद्यार्थीलाई क्रमशः प्रत्येक प्रश्नको सही उत्तर भन्न लगाउनुहोस् ।

- यस खण्डमा तिमीहरूले २ मिनेटको समयमा एउटा सानो कथा पढ्नुपर्छ । २ मिनेटपछि कथाका बारेमा ३ ओटा प्रश्नहरू पनि पढ्ने छौ । तिमीहरूलाई दिइएको उत्तरपत्रमा प्रत्येक प्रश्नका विकल्पहरूमध्ये सही उत्तरमा चिह्न लगाउनुपर्ने छ । यसका लागि हामी एउटा उदाहरणको अभ्यास गरौं ।

उदाहरण

राम बिहान उठ्यो । हातमुख धोयो । खाना खायो । कापी किताब भोलामा राख्यो । दिदीसँग विद्यालय गयो ।

उदाहरणका लागि :

रामले के खायो ?

खाजा	खाना✓	फलफूल	चिया	चिउरा
------	-------	-------	------	-------

माथिको निर्देशन नबुझेमा शिक्षकले पुनः दोहोर्याउने

- अब तिमीहरूको उत्तर पत्रमा भएको कथा तिमीहरू आफैँले मनमनै वाचन गर्नुपर्नेछ । यसका लागि तिमीहरूको उत्तर पत्रमा भएको कथामा आफ्नो औँला राख । तिमीहरू सबै तयार भयौ ?

यो उपकार्य सुरु गर्नु पूर्व सबै विद्यार्थीहरूले आ-आफ्नो अगाडि भएको कथामा आफ्नो औँला राखेको कुरा सुनिश्चित गर्नुहोस् ।

- तिमीहरूले पढिसकेपछि यदि नबुझेको भए पुनः एक पटक पढ ।

कथा पढ्न सुरु गरेको समय नोट गर्नुहोस् । विद्यार्थीहरूले कथा पढ्न सुरु गरेको २ मिनेट पुग्ने बित्तिकै समय सकिएको सङ्केत गरी पढ्न रोक्नुहोस् । अब कथासँग सम्बन्धित प्रश्नहरूको उत्तर दिनका लागि विद्यार्थीहरूलाई तयार हुन लगाउनुहोस् । प्रश्नहरूको उत्तर दिने कार्य सुरु गर्नुभन्दा पहिले सबै विद्यार्थीहरू सही पृष्ठमा भए, नभएको यकिन गर्नुहोस् ।

- यहाँ जम्मा ३ ओटा प्रश्न छन् । प्रत्येक प्रश्नको मुनि एउटा बाकस छ र उक्त बाकसमा सम्भावित उत्तरहरू राखिएका छन् । उक्त बाकसबाट प्रत्येक प्रश्नको सही उत्तर पहिचान गरी रेजा चिह्न (✓) लगाऊ । यसका लागि तिमीहरूसित ३ मिनेट समय छ ।

- ल अब सुरु गरौं है त !

जब विद्यार्थीले उत्तर दिन थालेको २ मिनेट पुग्छ, समय सकिएको सङ्केत गर्नुहोस् र लेख्ने कार्य पूर्ण रूपमा बन्द गराउनुहोस् ।

उपकार्य ६

समय : ६ मिनेट

शब्द भण्डार (सि.उ. २४)

निर्देशन र उदाहरण

कालो वा सेतो पाटीमा तलका उद्धरणबाट शब्दहरू दिई बालबालिकालाई जोडा मिलाउने तरिकामा स्पष्ट पार्नुहोस् ।

🔊 यस खण्डमा तिमीहरूले सानो अनुच्छेद पढ्ने छौ । सो पढिसकेपछि तल दुई लहरमा शब्दहरू छन् । एक लहरका शब्दहरू अर्को लहरका शब्दसँग मिल्ने खालका छन् । ती शब्दहरू तिमीहरूले पहिचान गरेर सिसाकलमले धर्को तानेर जोडा मिलाउनुपर्छ । यहाँ एउटा कविताको दुई हरफको उदाहरण हेरौं है त !

उद्धरण

यो नेपाली शिर उचाली संसारमा लम्कन्छ,

जुनकिरी भैं ज्योति बाली अन्धकारमा चम्कन्छ ।

समूह 'क'

शिर

ज्योति

अन्धकार

उचाली

समूह 'ख'

अँध्यारो

उठाएर

टाउको

उज्यालो

शरीर

बायाँतिरको लहरको **शिर** शब्द दायाँतिरको लहरको **टाउको** सँग मिल्छ भनेपछि बालबालिकाहरूलाई ज्योति केसँग मिल्छ होला भनी प्रश्न गर्नुहोस् । उत्सुक विद्यार्थीले हात उठाएपछि कालो/सेतो पाटीनिर गएर जोडा मिलाउन लगाउनुहोस् र ठिक भएमा प्रशंसा गर्नुहोस् । जोडा मिलाउने तरिका बुझेको यकिन गरी क्रियाकलाप अधि बढाउनुहोस् ।

🔊 ल अब सुरु गरौं है त !

विद्यार्थीले २ मिनेट पढेपछि उक्त कार्यलाई रोक्नुहोस् अनि विद्यार्थीलाई उत्तर दिन लगाउनुहोस् । जब उत्तर दिन थालेको २ मिनेट पुग्छ, समय सकिएको सङ्केत गर्नुहोस् र लेख्ने कार्य पूर्ण रूपमा बन्द गराउनुहोस् ।

उपकार्य ७

समय : ६ मिनेट

जोडिएका शब्द छुट्याउने (सि.उ. २०)

निर्देशन/उदाहरण:

यो खण्ड सुरु गर्नु पूर्व कालो/सेतो पाटीमा तल देखाइएअनुसारका वाक्य लेख्नुहोस् र प्रत्येक वाक्यलाई तल देखाइए जस्तै गरी कुनै एउटाको शब्द छुट्याएर देखाउनुहोस् । यसपछि बालबालिकालाई अर्को शब्द जोडिएको वाक्यलाई शब्द छुट्याउनका लागि अनुरोध गर्नुहोस् । उत्सुक विद्यार्थीलाई अगाडि डाकेर शब्द छुट्याउन लगाउनुहोस् । सही कार्यका लागि प्रशंसा गर्नुहोस् ।

मेरोघरछ ।

मेरो घर छ ।

घरमाभाइछ ।

घरमा भाइ छ ।

अब विद्यार्थीको उत्तर पत्रमा रहेका जोडिएका वाक्यलाई ती वाक्यको ठिक मुनि रहेको खाली ठाउँमा यसै गरी लेख्न लगाउनुहोस् । सोका लागि ४ मिनेट समय रहेको कुरा जानकारी दिई समय सकिएपछि लेखाइ बन्द गराउन तयार रहनुहोस् ।

उपकार्य ८

समय ६ मिनेट

श्रुति लेखन (सि.उ. १९)

निर्देशन :

तपाईंले सामान्य गतिमा तलका वाक्यहरू एक पटक पढेर सुनाउनुहोस् । त्यसपछि तपाईंले उक्त वाक्य दोस्रो पटक पुनः पढेर सुनाउनु पर्नेछ । दोस्रो पटक पढ्दा १ सेकेन्डमा १ शब्द पढ्नु पर्नेछ । अब ५ सेकेन्ड रोकिनुहोस् र उक्त वाक्य तेस्रो पटक पुनः वाचन गर्नुहोस् । अब विद्यार्थीलाई करिब १ मिनेट भित्रमा उक्त वाक्य लेख्न लगाउनुहोस् ।

☛ अब म ४ ओटा छोटो वाक्यहरू पढेर सुनाउन गइरहेको छु । कृपया ध्यानपूर्वक सुन । म एक वाक्य एक पटक पढ्ने छु । त्यसपछि उक्त वाक्य दोस्रो पटक विस्तारै पढ्ने छु । तिमीहरूले सुनेको वाक्य लेख्नुपर्छ । म उक्त वाक्य फेरि पनि पढेर सुनाउने छु । यसबाट तिमीहरूले लेखेको वाक्य सही वा गलत छुट्याउन सहयोग मिल्नेछ । के अब तिमीहरू उक्त कार्य गर्न स्पष्ट भयौ ? अब हामी सुरु गरौं त ?

☛ तिमीहरूसँग भएको उत्तर पत्रको पहिलो हरफको सुरुमा सिसाकलम राख । मैले पढेको प्रत्येक वाक्य ध्यानपूर्वक सुन । मैले एउटा वाक्य तीनपटक मात्र पढ्ने छु । त्यसपछि तिमीहरूसँग भएको उत्तर पत्रमा उक्त वाक्य लेख । तिमीहरूले एक हरफमा एक वाक्य मात्र लेख्नुपर्ने छ ।

☛ अब तिमीहरू लेख्न तयार होऊ । तिमीहरूले १ मिनेटमा लेखिसक्नुपर्छ । पहिलो वाक्य यस प्रकार छ : **म फलफूल खान्छु ।** (उक्त वाक्य विस्तारै पुनः वाचन गर्नुहोस् ।) करिब ५ सेकेन्ड रोकिनुहोस् र पुनः सो वाक्य वाचन गर्नुहोस् ।) तिमीहरूसित लेख्नका लागि १ मिनेट समय छ है त !

(यसैगरी तलका वाक्यहरू पनि उच्चारण गरी माथिजस्तै गरी दोहोर्याउनुहोस्)

☛ दोस्रो वाक्य यस प्रकार छ :

पिउने पानी सफा हुनु पर्छ ।

☛ तेस्रो वाक्य यस प्रकार छ :

पाकेको आँप गुलियो हुन्छ ।

☛ चौथो वाक्य यस प्रकार छ :

रामले भोलामा आफ्नो किताब राख्यो ।

परीक्षकका लागि रुजु, सूची र निर्देशन

- परीक्षण कार्य सुरु गर्नु पहिले हरेक उपकार्यका लागि निर्धारित परीक्षणका साधनहरू राम्ररी अध्ययन गरी तयारी गर्नुहोस् ।
- कक्षामा बालबालिकासँग नम्र भई मायालु व्यवहार देखाउनुहोस् ।
- यदि कक्षामा २० जनाभन्दा बढी विद्यार्थी छन् भने चिठ्ठा हाली छात्र छात्राको सङ्ख्या सम्भव भएसम्म बराबर हुने गरी जम्मा २० जना मात्र विद्यार्थी छनोट गर्नुहोस् ।
- कक्षा अवलोकनका लागि अभिभावकको उपस्थिति हुनु पर्ने कुराको सुनिश्चित गर्नुहोस् ।
- अभिभावकको उपस्थितिबाट परीक्षण कार्यक्रम सञ्चालनमा कुनै बाधा नपर्ने व्यवस्था मिलाउनुहोस् ।
- सम्बन्धित अभिभावक र बालबालिकाबीच परिचय नगराउनुहोस् ।
- कक्षा नियन्त्रण तथा अन्य सहयोग आवश्यक भए सम्बन्धित विद्यालयको एक जना शिक्षकको सहयोग लिनुहोस् ।
- परीक्षण अगाडि बालबालिकाहरूलाई आ-आफ्ना स्थानमा छुट्टा-छुट्टै बस्न लगाउनुहोस् ।
- सबै बालबालिकाहरूले स्पष्टसँग सुन्न सक्ने गरी निर्देशन दिनुहोस् ।
- परीक्षण अवधिभर सबै बालबालिकाहरूलाई सिसाकलम र इरेजर मात्र लिई बस्न लगाउनुहोस् ।
- कालो/सेतो पाटी सफा गर्ने डस्टर र लेखनका लागि आवश्यक पर्ने चक वा मार्करको व्यवस्था गर्नुहोस् ।
- कक्षामा प्रश्न सेटको वितरण तलको चित्रमा देखाए भैं गरी गर्नुहोस् :

क ☺	ख ☺	क ☺	ख ☺
ख ☺	क ☺	ख ☺	क ☺

- हरेक परीक्षण कार्य सुरु गर्नु पहिले प्रत्येक उपकार्यका उदाहरण कालो/सेतो पाटीमा स्पष्ट रूपमा लेखी देखाउनुहोस् र बालबालिकाहरूलाई स्पष्ट पारी उनीहरूसँग 'अब शुरु गरौं है' भन्नुहोस् ।
- प्रत्येक उपकार्यको परीक्षण कार्य क्रमशः सञ्चालन गर्दै जानुहोस् ।
- उपकार्यहरू सञ्चालन गर्दा बालबालिकाहरू निर्दिष्ट पृष्ठमा छन्, छैनन् भन्ने कुराको यकिन गर्नुहोस् ।
- अक्षर, शब्द वा वाक्य उच्चारण गर्दा बालबालिकाहरूलाई आफूतिर हेर्न भन्नुहोस् । यसो गर्दा उच्चारित कुरा बालबालिकाहरूलाई बुझ्न सजिलो हुन्छ ।
- हरेक उदाहरण उच्चारण गर्दा दुई पटक गर्नुहोस् तर उपकार्य ७ को श्रुति लेखन गराउँदा तीन पटक पढिदिनुहोस् ।
- कालो/सेतो पाटीमा गरिने उदाहरण क्रियाकलापमा इच्छुक बालबालिकाहरूलाई आलोपालो सहभागी गराउनुहोस् । तर एउटा उपकार्यमा एक जनाभन्दा बढीलाई सहभागी नगराउनुहोस् ।
- परीक्षण कार्य समाप्त भएपछि सबै बालबालिकाहरूका उत्तरपत्रहरू सङ्कलन गर्नुहोस् । त्यसो गर्दा उत्तर नलेख्ने विद्यार्थीको उत्तरपत्रहरू पनि सङ्कलन गर्नुहोस् ।
- प्रत्येक उपकार्यमा छायाँ पारी राखिएका कुरा शिक्षक वा परीक्षकको जानकारीका लागि मात्र भएको कुरामा ध्यान पुऱ्याउनुहोस् ।
- यो परीक्षण कार्य अनुसन्धानात्मक भएको र यसले तपाईंको विद्यालयको मूल्याङ्कन नगर्ने हुँदा विद्यार्थीलाई जे जानेका छन् सोही अनुसार गर्न लगाउनुहोस् ।

राजु बुबासँग चिडियाखाना घुम्न गए । उनीहरू घुम्दाघुम्दै बाँदर भएको ठाउँमा पुगे । बाँदरले राजुको टोपी लग्यो । उनी जिल्ल परे । मेरो टोपी बाँदरले लग्यो भनेर राजु चिच्याएर रोए । बाँदरले टोपी फिर्ता दिएन । राजु दुःखी भएर बुबासँगै बाहिर निस्के । त्यसपछि बुबाले नयाँ टोपी किनिदिनुभयो । नयाँ टोपी लगाएर राजु बुबासँग घर फर्किए ।

❖ यस पृष्ठमा तिमीहरूले (कालो/सेतो पाटीमा देखाउँदै) यस्तो बाकस देख्ने छौ । अब म तिमीहरूलाई एउटा प्रश्न सोध्छु । मैले सोधेको प्रश्न (राजु कहाँ घुम्न गए ?) राम्ररी सुन र तलको बाकसमा दिइएका शब्दहरूमध्ये ठिक शब्दमा रेजा चिह्न (✓) लगाऊ । के मैले भनेका कुराहरू सबैले बुझ्यौ ? तिमीहरूमध्ये कोही अभ्यास गर्न चाहन्छौ ?

विद्यार्थीहरू कुनैले हात उठाएमा उसलाई कालो/सेतो पाटी नजिक ल्याई सबैले देख्ने गरी अभ्यास गराउनुहोस् । सर्वप्रथम यस अघि लगाइएका चिह्न मेटाउनुहोस् र बाकसमा रहेका शब्दहरू पुनः उच्चारण गर्नुहोस् । उक्त विद्यार्थीलाई बाकसमा सही शब्दमा रेजा चिह्न (✓) लगाउन निर्देश गर्नुहोस् । अब विद्यार्थीले लगाएको रेजा चिह्न सही भए नभएको कुरा कक्षाका सबै विद्यार्थीहरूलाई सोध्नुहोस् । सही उत्तरका लागि धन्यवाद दिनुहोस् ।

राजु कहाँ घुम्न गए ?
